From the Editor: "Thank you Covid" for bringing out the best of people, for bringing lifelong connections into my life, for hugging that complete stranger who wears a "recognizable" hat or T-shirt, which indicates, "I'll probably have a really good convo for an hour or more." Thank you Covid, for our great NZ organisations that have risen from this, who are concerned with government overreach, most of whom are in the NZ Rising Directory. With good people like these, everything will work out in the end. And if it doesn't, it's not the end.

NZ NEWS

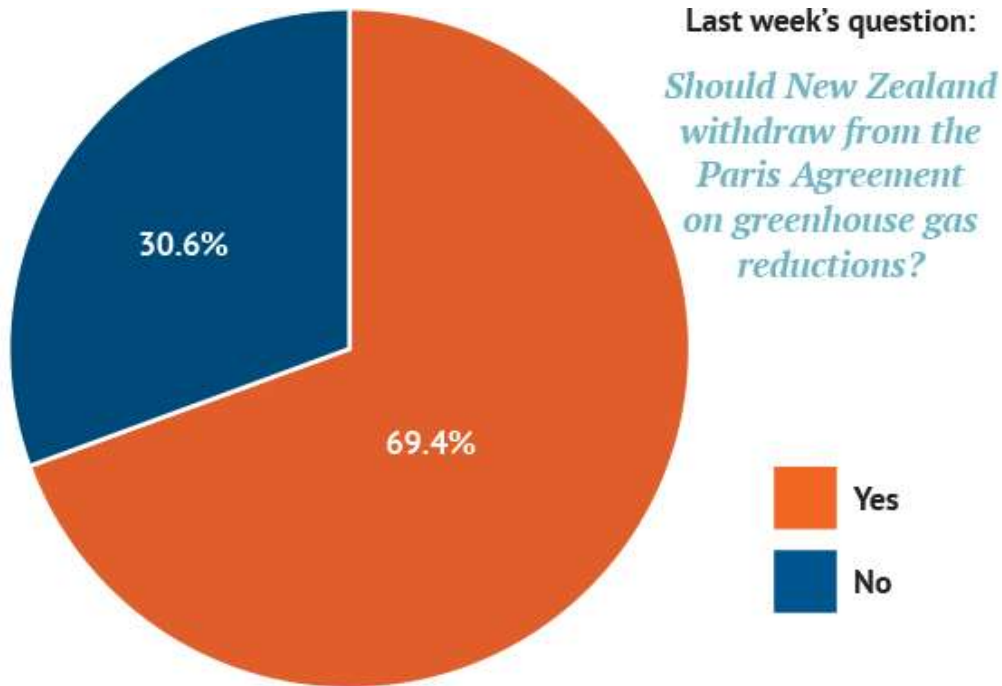

Water Fluoridation: US Attorney Michael Connett's NZ
Presentation - Landmark Court Case Against US
Govt Online Now

THE UNITED STATES FEDERAL COURT CASE on WATER FLUORIDATION

From [FluorideFreeNZ](#): US Attorney Michael Connett gave this presentation in Wellington on Monday 10 February 2025. This was the last and best talk that Michael gave in New Zealand. This presentation was simultaneously livestreamed to multiple locations in the South Island. For those of you who were unable to attend any of the talks (or were unable hear the livestream), I'm sure once you watch this that you will appreciate why it was met with standing ovations. Michael takes us through the ups and downs of this seven-year-long court case. Through this journey we find out that fluoridation is not based on any sound science whatsoever, and that it is powerful interests at the top echelons of the US Public Health Service, and presumably many other unseen players, that keep this harmful practice going. Please share this presentation on whatever social media platform you use, and send it to as many people as possible including mainstream media. Ask your local MP, your local councillors, your dentist, your doctor and any other health professional you know, to watch it. As said on the night, "if this were on TV1, fluoridation would be over in the morning". Watch the presentation [here](#):

Poll: NZ Should Leave Paris Agreement.

From: Bryce McKenzie, [Groundswell](#)

Last week's poll question was based on the ['Minister denies hefty bill'](#) for missing GHG targets' article.

We asked readers: Should New Zealand withdraw from the Paris Agreement on greenhouse gas reductions?

A majority of voters thought New Zealand should leave the Paris Agreement, with many believing it was nonsensical for a small emitter like New Zealand to be involved.

Others, however, thought it was vital for retaining trading partners and it was simply the right thing to do. Read more details [here](#):

Lynda Wharton's Email to Commission Head Spells Out Concerns of NZ Vax Contract

From Penny Marie:

Lynda Wharton from Health Forum NZ sent a 21-page email to Grant Illingham KC, Chair of NZ's 'Royal Commission COVID-19 Lessons Learned,' highlighting concerning clauses in Pfizer contracts from six other countries. Watch and listen to the breakdown with Penny Marie and Lynda Wharton [here](#):

Jim Grenon Buys 10% of NZME

By *Peter Williams*

"It is one of the most significant moves in the history of the New Zealand media. In time it may be seen as one of the most important manoeuvres in our recent social history.

Ex-pat Canadian businessman Jim Grenon has bought just under ten percent of New Zealand Media and Entertainment (NZME) and now says he has the support of enough other shareholders to force a complete replacement of the company's board.

We know a little of Grenon's mindset through his previous ownership of the small online media outlet The Centrist. He has views which might be regarded as conservative and contrary to the prevailing media narrative in this country. It appears he wants more opportunity for all sides of a particular story to be told through outlets like the New Zealand Herald and Newstalk ZB."

Read the rest of his article [here](#):

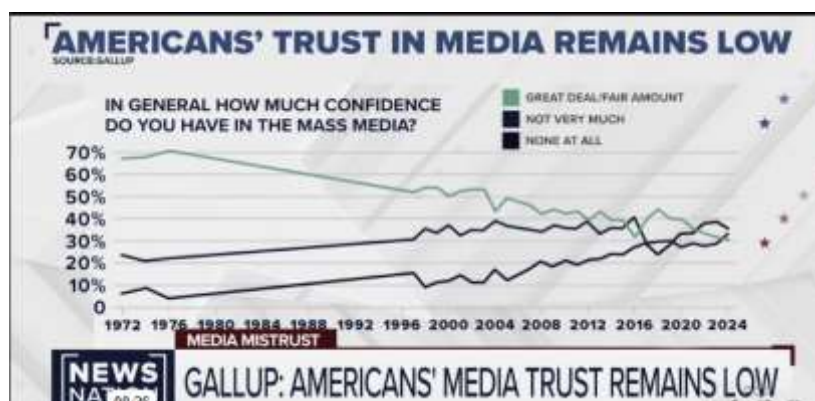

And this comment by Penny Marie of [Let Kids be Kids](#):

"Legacy media bye-bye... this is an exciting development. Picture this: Someday soon, 'news' in New Zealand will be fronted by people who will share facts and evidence, not read off politically swayed scripts."

Media Trust in Freefall

[Alistair Harding](#) of [RCR 360](#) explores the growing distrust in mainstream media, exposing its bias, government influence, and lack of balanced reporting. Harding and Maree Buscke dive into the collapse of media trust in New Zealand, linking it to censorship, the Public Interest Journalism Fund, and selective reporting—especially during COVID-19. This episode also uncovers the Global Censorship Industrial Complex with Twitter Files insider Andrew Lowenthal, revealing the deep ties between governments, Big Tech, and media in a worldwide effort to control information. Meanwhile, retired judge David Harvey unpacks New Zealand's proposed media regulations, questioning whether the rules are being made up as they go—and what this could mean for independent media like RCR. With citizen journalism on the rise, the conversation asks: Can trust in news be restored? And how might media regulation evolve in a rapidly changing landscape? Listen and watch on Reality Check Radio [here](#):
Below is an example of the US population's dropping trust in media.

The Free Speech Union Tour with Dr. James Lindsay

Dr. Lindsay is an American-born author, mathematician, founder of New Discourses, and self-described professional troublemaker. Known for his sharp wit and thought-provoking insights, he is a leading critic of Critical Race Theory and "Woke" ideology. His bestselling books, including *Cynical Theories* and *Race Marxism*, have sparked global dialogue and have been translated into over a dozen languages. Through his podcast, speaking engagements, and media appearances on platforms like *The Joe Rogan Experience*, *Fox News*, and *NPR*, Dr. Lindsay challenges divisive ideologies and invites audiences to think critically and engage meaningfully with today's cultural issues. The events in the North Island and Christchurch are approaching fast as of this writing. There's still time to get tickets. For more info, click [here](#)

INTERNATIONAL NEWS

Venezuelan President "Tells All" on the Biden Admin

BREAKING: Venezuelan President Just Publicly Surrendered to President Trump! Maduro Has Now Turned In State Evidence Against The Biden Admin & Is Releasing PROOF That Biden Asked The Venezuelan Government TO SHIP Tren de Aragua Dr*g Gangs Into The US

This is a pretty impressive turn of events. This video clearly shows the president of Venezuela telling a large audience of his fellow Venezuelans about requests he received from the Biden

administration for his government to export criminals and gang members to the US. Watch the president's address [here](#):

Putin: "Russia Will Never Be Your Enemy"

On Croatian Television Channel 4, Vladimir Putin was allowed to speak. He addressed the Europeans: "Russia has never been and will never be your enemy!"

"Citizens of the Western countries, your governments persistently try to convince you that all of your difficulties are the result of some hostile actions by Russia, and that you should pay from your own wallet to fight against the mythical Russian threat. This is a lie. The truth is that all of the problems you are facing are the result of years of mistakes, ambitions, and short-sightedness of your ruling elites. These elites do not think about how to make your life better; they are obsessed with their selfish interests and super-profits."

We do not want European raw materials and wealth, we have our own raw materials and wealth, we absolutely do not need your raw materials. Russia is the richest country in the world in terms of raw materials.

We do not want your land or your territory. Look at how wide Russia is on the map. Russia is twice the size of the whole of Europe in one place. What would we need your land for, what do we do with it?

Why do you think Russia is an enemy of Europe? What damage has Russia done to you?

Have we sold you gas and raw materials at lower prices than the prices at which your "friends" are currently selling you? YES
Did Russia sacrifice 20 million people in World War II to get rid of the Nazis? YES
Was Russia the first country to help Europe during the Covid pandemic? YES
Did we help Europe when there were fires and natural disasters? YES
What has Russia done to you that you hate it so much?
Russia is not your enemy; your real enemies are your leaders, those who lead you!"
Watch his address [here](#):

Missouri US Attorney General Asks US DOJ to Investigate Biden's Capacity Orders and Pardons: Null and Void?

Missouri AG to DOJ: Who Ran the Country During Biden's Term? If Staffers, Orders Were "Null and Void"

GOP Attorney General Andrew Bailey of Missouri has asked the Department of Justice (DOJ) to investigate President Joe Biden's "mental capacity" and find out who was running the country during the last four years.

In a letter to DOJ Inspector General Michael Horowitz, Bailey wrote that the administration's trek into the fever swamps of the Left suggest that Biden's staffers could have used the elderly president's "incapacity" to pursue their radical agenda.

If so, then Biden's orders and pardons were "unconstitutional and legally void," he wrote on X.

Bailey's letter coincides with the release of documents signed by Biden. Read the rest of this story [here](#):

James Corbett and Friends Deliver The White Pill

"There are people out there trying to get you to swallow the black pill. They say you are weak, powerless and pathetic and that your only power is to select which oligarchs will rule over you. Today, James Corbett and friends deliver the white pill truth: that you are powerful, that you are important and that you can take actions that will change the world for the better. Don't miss this important, star-studded edition of #SolutionsWatch on how to ditch the whole black/blue/white/red pill paradigm and achieve positive change in the real world." Watch the interview [here](#):

Concerns about DOGE By Two Stalwarts for Change

An interesting turn of events with two very switched-on people: Fitts and Wolf, both of whom have concerns about DOGE.

"Renowned economist and futurist Catherine Austin Fitts expands on and adds detail to her warnings about what may be a deeper agenda behind the exciting headlines generated by Elon Musk's DOGE. Are elements of a turnkey 'control grid' being locked into place? Does eliminating the civil service, as bracing as it sounds, actually empower rather than dismantle the Deep State? What kind of boundless persecution can individuals face when private or unrestricted government AI has access to all their personal data? And what happened to the numerous government investigations into Mr. Musk's companies, not to mention his conflicts of interest? Also: why it is patriotic to remain critical, even of an administration one supports. 'You can watch the interview [here](#):"

Political

HHS secretary RFK Jr. has issued a stop work order on vaccine production and testing by vaccine producer Vaxart. The reason for the stop work order was "to ensure this work produces safe, effective, and fiscal-minded vaccine technology." "The stop-work order comes as 10,000 individuals were slated to begin clinical trials on Monday. A recent modification to the contract would have allowed Vaxart to invoice for roughly \$230 million for clinical trials, but the stop-work

order prevents the biotech company from invoicing until further notice. Of interest is that a Vaxart trial endpoint focuses on the vaccine's ability "to reduce virus replication/shedding in the respiratory tract". If shedding wasn't a major concern over the last five years, why would Vaxart highlight and proudly market their new vaccine's ability to reduce shedding abilities?

- <https://open.substack.com/pub/jeffereyjaxen/p/action-hhs-halts-230m-nextgen-covid>

The B.C. government will end a component of its so-called "safe supply" program after extensive reporting that showed hard drugs distributed by pharmacists were being diverted to the black market. B.C. NDP Health Minister Josie Osborne said the practice of allowing users to take their prescribed opioids home will be limited to a "witnessed model," meaning users will have to be watched by health professionals as they consume the drugs. Data released by the B.C.

Emergency Health Services shows that calls for drug overdoses and poisoning have almost doubled in virtually every major municipality in the province since the "safe supply" program was originally introduced in 2020. - <https://www.junonews.com/p/bc-ndp-end-take-home-safe-supply>

Top government officials in Slovakia are moving to ban Covid mRNA shots from the country after an investigation determined that the pandemic was a "fabricated operation" and the "vaccines" were a resulting "act of bioterrorism." The findings were revealed in a Slovak government commission report on the nation's investigations into the Covid pandemic. The investigation was led by Commissioner Peter Kotlár, who called for the immediate ban of the Covid mRNA injections and called on governments around the world to do the same. "The most serious consequence of the whole fabricated operation called the COVID-19 pandemic is the endangerment of human health and the confirmation of the naivety of the world population to be subconsciously obedient," Kotlár said. - <https://www.truth11.com/slovakia-moves-to-ban-dangerous-covid-vaccines-declares-pandemic-a-fabricated-operation/>

The Florida Senate has passed a bill banning geoeengineering and weather modification, repealing existing licensing and reporting requirements, and prohibiting activities that alter temperature, weather, or the intensity of sunlight within the state's atmosphere.

Telling It Like It Is / Truth Bombs

The Mountain View School Division board in Dauphin, Manitoba has voted down a motion to revoke its flag policy, thereby keeping the current policy that allows only the Canadian, provincial, and school flags to be flown at schools. Board chair Jason Gryba says it already promotes inclusion by creating "welcoming and neutral" spaces and not making "distinctions" between groups. He said the "unrestricted" display of flags led to "unnecessary tension and distraction within schools." Parents want us to focus on numeracy, literacy and critical thinking." Debates over the flag policy shift the focus away from education.

- <https://www.theepochtimes.com/world/manitoba-school-board-upholds-flag-policy-reinstates-god-save-the-king-in-classrooms-5816484>

Dr Charles Hoffe said in an interview this week that the main purpose of CPSBC's investigation and the subsequent case against him was to threaten "every other doctor out there into **silence** by basically warning them that they would be investigated and disciplined if they dared to disagree with public health." This amounted to "effectively shutting down freedom of speech for the medical community in order to create this illusion of consensus." "All the doctors thought that all the other doctors must be on board because no one said a word. And the public thought all the doctors must be on board because no one said a word."

- <https://childrenshealthdefense.org/defender/health-authorities-silence-doctors-question-covid-vaccines-threaten-careers-did/>

Paul Offit, a longtime **defender of mass vaccination**, has now admitted that the government overlooked a critical scientific reality. "There's every reason to believe **natural infection** would prevent against serious disease," Offit stated. According to Offit, the administration didn't want to deal with the logistics of verifying prior infection." Instead of working to verify legitimate cases of **natural immunity**, the government steamrolled ahead, demanding total vaccine compliance and punishing those who resisted. Where was Offit when this was happening?

- <https://childrenshealthdefense.org/defender/paul-offit-admits-biden-administration-knew-natural-immunity-prevents-covid/>

In their article [Rethinking next-generation vaccines for coronaviruses, influenza, and other respiratory viruses](#), published in January 2023, **Fauci and his colleagues candidly admitted:** *"After more than 60 years of experience with influenza vaccines, very little improvement in vaccine prevention of infection has been noted. As pointed out decades ago, and still true today, the rates of effectiveness of our best approved influenza vaccines would be inadequate for licensure for most other vaccine-preventable diseases."* - <https://vaccinationispolitical.net/wp-content/uploads/2023/04/the-biggest-crime-in-history.the-influenza-and-sars-cov-2-vaccine-scam.pdf>

In a widely-viewed video [shared](#) on [social media](#), the U.S. Secretary of Health and Human Services, Robert F. Kennedy, Jr., asserted that the majority of vaccines – including those he sees as being mandated for infants – have been developed primarily to create profits for Big Pharma. *"Most of the vaccines after 1989 were added not for public health reasons but for pharmaceutical profit reasons,"* said Kennedy. - <https://www.lifesitenews.com/news/rfk-jr-theres-no-medical-justification-for-vaccinating-one-day-old-babies-for-hepatitis-b/>

Legal

The Democracy Fund has secured a pivotal victory for Ontario's Amish community, with the Crown withdrawing all *Quarantine Act* tickets against a group of Grey County Amish clients. The decision to withdraw concludes nearly six months of legal efforts, culminating in successful negotiations between TDF lawyers and Crown prosecutors. The Crown cited "no reasonable prospect of conviction." Though a milestone, TDF's work continues for other Amish clients facing similar charges and appeals. The Democracy Fund remains resolute in defending Canadians' constitutional rights against overreach. - <https://www.thedemocracyfund.ca/tdf-secures-major-win-as-crown-drops-all-quarantine-tickets-for-sarnia-amish-group>

Medicine

The Centers for Disease Control and Prevention has ended its "[Wild to Mild](#)" campaign that [promoted flu vaccines](#), especially to pregnant women and children. The decision originated with the U.S. Department of Health and Human Services, which "took a second look" at the campaign and decided to pull it. HHS called on the CDC to instead develop "advertisements that promote the idea of '[informed consent](#)' in vaccine decision-making." Pediatrician [Dr. Michelle Perro](#) called the "Wild to Mild" campaign "theatrical and inaccurate." She said patients "deserve transparent, scientifically accurate information about [vaccines](#) — informed consent — rather than slogans and misrepresentations." Drug safety advocate [Kim Witczak](#), said the omission of vaccine risks violates the principle of informed consent. She said: *"The use of analogies like turning a 'wild' animal into a 'mild' kitten oversimplifies a complex [health issue](#). It's marketing spin rather than science. "Public health shouldn't be about coercion or manipulation — it's about educating and empowering people to make choices that are right for them and their families. That means having access to clear, balanced information about the benefits and risks of any medical intervention."* Witczak said people "are tired of being talked down to and bombarded with 'the sky is falling' messaging." She said the end of the campaign is "a positive first step in shifting away from public health messaging that relies on fear, oversimplification, and emotional manipulation." - <https://childrenshealthdefense.org/defender/hhs-tells-cdc-remove-wild-to-mild-flu-vaccine-ad-campaign-informed-consent-focus>

Secretary of Health and Human Services Robert F. Kennedy Jr. has postponed the regular meeting of the Advisory Committee on Immunization Practices, or ACIP, originally scheduled for Feb 26-28. Kennedy, who has long raised concerns about public health regulators being [captured by industry](#), made [eliminating conflicts of interest](#) a key pillar of his platform as HHS secretary. In its final days, the [Biden administration quietly stacked ACIP](#) with several new pro-vaccine members, a move intended to "insulate the scientific integrity of the panel from the incoming administration." - <https://childrenshealthdefense.org/defender/hhs-secretary-rfk-jr-postpone-cdc-acip-meeting>

Utah lawmakers last week voted to pass the first U.S. statewide ban on adding fluoride to public water systems. The [Utah Senate voted 18-8](#) in favor of [the measure](#) after it passed in the House. If Gov. Spencer Cox signs the bill into law, it will end community water fluoridation in Utah. - <https://childrenshealthdefense.org/defender/utah-first-state-ban-water-fluoridation>

Seventy-four percent of elementary school personnel surveyed in California do not believe their schools have the authority to deny medical exemptions, and over half opposed COVID-19 vaccine mandates for students, according to a [study](#) funded by the [National Institutes of Health](#). Respondents expressed concerns about the safety of [vaccines](#) for children, with 42% “concerned that children’s immune systems could be weakened by too many shots.” Thirty-two percent thought immunizations do “more harm than good” and 28% said they did not believe [vaccines strengthened the immune system](#). Over one-third of respondents (37%) said they opposed vaccine requirements “because ‘they go against freedom of choice and because parents know what is best for their children.’” - <https://childrenshealthdefense.org/defender/nih-study-confirms-waning-support-vaccine-mandates>

OTHER NEWS

President Trump Addresses Joint Session of Congress "State of the Union"

During his first address to a joint session of Congress of his second term, President Trump outlined the agenda his administration has implemented since taking office. In the first ten minutes of the speech, he was interrupted by Representative Al Green (D-TX) who stood in opposition to the President's remarks and the planned cuts to Medicaid. Speaker Mike Johnson (R-LA) had the congressman removed from the House chamber. Democrats held up signs throughout the speech saying "False," "Musk Steals," "Protect Veterans," and others. On the Department of Government Efficiency (DOGE), President Trump highlighted the areas the department allegedly found fraud and abuse recognizing the department's top adviser, Elon Musk, and thanked him for his work. Other talking points included tariffs, eliminating DEI "woke" policies for military readiness, his determination to take Greenland "one way or the other" for national security purposes, and the on-going Russia-Ukraine and Israel-Hamas wars. Watch the whole speech and intro's [here](#):

If You Haven't Heard of Ian Carroll Yet You'll Be Hearing More of Him in the Future

Ian Carroll is a smart guy. Investigative journalist [James O'Keefe](#) has this to say about Carroll: *"Ian Carroll impresses me. He's a great communicator and all of his investigative work is done from OSINT. I don't agree with all of his opinions, but more importantly, he's one of a handful of people who appears to not be a grifter and who is not for sale. That, combined with his talents, makes him unstoppable."*

Two years ago, he was an Uber-Eats driver. But now, because of his ability to do deep research on published facts on the web, he's been recently propelled in "Alt-News-Stardom". And for good

reason. He's a quick study, to say the least, and seems like a genuinely nice guy. He was interviewed a few days ago on the Joe Rogan Show. If you want to cover the waterfront on a wide variety of current topics, better yet, if you want to share this link with someone sitting on the fence, or completely in a zombie state - this could be the one that makes the penny drop. Watch and listen to the interview [here](#):

Make up Your Own Mind on Musk

Elon Musk was also recently on the Joe Rogan Experience. As with the Trump interview, (which Kamala Harris decided to decline the invite) all interviews are 2.5 - 3 hours long. While I'd rather drink Drano than watch Zuckerberg again, (3 hours that I'll never get back), long interviews such as this, allow one to "get a read" on the person. It's the next best thing to meeting him in person. Make up your own mind, if we're in trouble with this fellow at DOGE or, he's genuine. Watch the interview [here](#):

**"An Unholy Triad"
The Birth Of A Plague Doco Prt 1**

Pure Media Australia reports after a year-long investigation exposing a deep conspiracy: Three nations, (USSR, USA, China), secretly combined their bioweapon programs to unleash COVID-19 on the world.

Uncovered documents in coded bioweapon language reveal the truth behind the virus.

This story is a smoking gun that could change how we see the origins of Covid.

You can watch the documentary, Episode 1, [here](#):

Standing Up And Saying Something

There is a cost to standing up and saying something. I've stirred up a bee's nest with a couple of posts on my personal [Facebook page](#) re: Elon Musk, and about Trump. But I'm way past that point caring what people think. I've recently had wonderful

Protests Erupt In Romania Over Canceled Presidential Election

BUCHAREST -- Protesters took to the streets of Bucharest over the weekend to demand a second round of elections after nationalist candidate Calin Georgescu's victory in December's first round was cancelled over allegations of "Russian interference". Protest organiser George Simeon said the protest was to "restore democracy and free elections". Thousands of people rallied in the Romanian capital, on January 12 to protest the December annulment of the presidential election in which right-wing, pro-Russian candidate Calin Georgescu unexpectedly won the first round.

The protest began around 2 p.m. at Bucharest's University Square and spread out to other sites. At 10:30 p.m., some 200 people were still in front of government buildings near Victory Square.

Protests have been continuing in Romania since December 6 when the Constitutional Court canceled the election two days before the second round amid allegations of Russian interference. Read the rest of this story [here](#):

The Real Reason the FDA Greenlit COVID Vaccines

examples of rejection (see image above) and the other, one of acceptance & curiosity. I consider that a win.

From: Susan F

"Hey Randall.

Thanks for your post on Trump. I agree with you on how you see him, would not want to hang out with the man, but believe he is a no nonsense straight shooter and what we need right now for the US to try and get back to some sort of country like it was.

I remember you from high school as being a very smart individual, so I would actually love to get some resources of what you read and listen to. It is so hard to wade through all the leftist mainstream media crap. And yes, it's like we're living in two different universes where you can read one thing about someone and turn around and read the total opposite in another article. Very difficult to know what to believe these days and difficult to find real news that doesn't have an agenda from either the left or the right.

So when you have a minute, please send me some links. I'd be very interested in having some fresh perspectives.

Hope you're doing well in New Zealand. I've never been but hear it's a fabulous place."

IMAGE: Note the 14 year span from my first reach-out to her and her recent reply.

Recent whistleblower testimonies have revealed the anatomy of corruption within the FDA.

The medical field has always had a problem holding onto dogmatic traditions and attacking physician dissidents who risk their careers to point out why those practices are unsafe and ineffective. To address this, in the 1960s, physicians began pushing for medical practice to be dictated by scientific evidence rather than entrenched interests, and in 1991, "evidence-based medicine" was born.
