WHAT IS NEW ZEALAND RISING?

New Zealand Rising is an alliance of separate groups and individuals from all across New Zealand who believe in a better future. We are many different people with different views, however we all share a common vision for the future.

"We, the people, stand united for a New Zealand that is respectful, includes everyone, and is free of government overreach."

"Kia tūkotahi tātou ō Aotearoa, hei whakarangatira tātou i a tātou. Herea te Kāwanatanga, kia kore e pēhia te mana o te tāngata."

[Our website](#) contains a directory of all groups around New Zealand that share this vision.

Past and present newsletters can be accessed [here](#).

From the Editor:

This is packed issue, and admittedly, with what's going on these days, a bit overwhelming.

Author G. Edward Griffin was once asked in an interview, "How do you keep a positive outlook? You seem so calm and well-collected - at peace." Griffin responded, "I made up my mind a long time ago, I am not the material about which I write. I have a spiritual practice, a family and a sense of my place in the world."

Adding, "This keeps me centered in a sometimes chaotic world." (paraphrased from the video interview).

Griffin is a wise man, who's been warning us, through his lectures and books for decades. It's an interesting little twist that, as we go to press, that the meme I found on Griffin, above, features our own Wanaka Tree. Maybe it's another small sign we're on the right path.

Lastly, a word about, *Courage*. Many of the stories below which feature very public people, one politician, two media personalities, three Japanese doctors, not to mention, our own Kiwi heroes, are all speaking out against power, with some serious consequences. Some are stepping out of line with whom they were in recent agreement. This takes guts, and thank God for them, both here in New Zealand and abroad. They're good examples for us.

NZ NEWS

"We Would Not Have Changed a Single Thing..."

By Lynda Wharton

This is a table of peaceful but exhausted mRNA harmed New Zealanders (and me - I'm the one in the striped jacket ...founder of The Health Forum NZ).

Today, in Auckland (along with 4 more brave New Zealanders who were unable to attend due to distance and mRNA sickness) we had a 95 minute formal hearing with the Royal Commission of Inquiry Commissioners and their legal council.

We were received with warmth, compassion and an obvious willingness to listen.

For 95 minutes we pulled back the curtain and shared brutally raw testimony of once happy and healthy lives, decimated by a (mandated) provisionally approved novel product.

Our team of 10 injured or bereaved were a sight to behold. I am in awe of the courage and fortitude they displayed, keeping their composure and speaking from the heart.

Yes there were tears...and not just from our team. Read more [here](#):

The Trans Movement is an Industry And It Targets Autistics

By [Penny Marie](#), [Let Kids Be Kids](#)

In my recent expose on [Lil Gay Out](#), a school 'pride event' I featured a video of Sven speaking out against a Bill being passed in Colorado last month. I was introduced to Sven; the result was we had an insightful and heartfelt conversation on topics that need to be addressed with urgency.

In our watershed conversation, Sven shares his first-hand and deeply personal experience and insights. He explains why he believes trans ideology exploits autistic youth's social struggles for profit and political gain.

Trans is an industry, and it's targeting autistics

Sven and I discuss how the trans (TQ) movement is not a community but a lucrative industry targeting vulnerable youth, especially those with autism, ADHD, and other neurodiverse conditions, using strategies like 'love bombing' to exploit their desire for belonging. Watch [here](#):

With So Many Parties 'Ruling Out' Working With Other Parties, is MMP Losing its Way?

There has been a lot of “ruling out” going on in New Zealand politics lately. In the most recent outbreak, both the incoming and outgoing deputy prime ministers, ACT’s David Seymour and NZ First’s Winston Peters, ruled out ever working with the Labour Party.

Seymour has also advised Labour to rule out working with Te Pāti Māori. Labour leader Chris Hipkins has engaged in some ruling out of his own, indicating he won’t work with Winston Peters again. Before the last election, National’s Christopher Luxon ruled out working with Te Pāti Māori.

And while the Greens haven’t yet formally ruled anyone out, co-leader Chlöe Swarbrick has said they could only work with National if it was prepared to “completely U-turn on their callous, cruel cuts to climate, to science, to people’s wellbeing”. Read the rest of this story [here](#):

Glyphosate to be Debated in High Court

The ELI is challenging the EPA's 2024 refusal to reassess glyphosate and glyphosate-based substances. Photo: AFP

The Environmental Law Initiative is challenging the Environmental Protection Authority's refusal to reassess glyphosate and glyphosate-based substances.

A judicial review hearing - which is expected to last two days from Monday - will see ELI challenge the EPA's 2024 refusal to reassess glyphosate and glyphosate-based substances. There had been significant scientific research on the herbicide since it was first introduced to New Zealand about 50 years ago, Environmental Law Initiative senior legal advisor Tess Upperton said.

That was the grounds ELI used in their formal request for a risk reassessment, but the EPA refused last year, prompting the judicial review set to be heard today and tomorrow.

Upperton said while the EPA had reviewed some aspects over the years, such as looking at carcinogenicity of glyphosate in 2015, there had never been a full risk assessment, which is the usual protocol when a new product is first approved for use.

"That's largely because it was first approved in the 1970s. We have asked the EPA for a record of that original risk assessment. They don't have a copy of that. They don't know what it is."

Since then, RoundUp and the more than 90 other glyphosate based formulas sold in New Zealand had been "grandfathered through successive regimes," she said, even though some of the glyphosate-based formulas have been found to have additional ingredients that amplify glyphosates toxicity. Open Pit Gold Mine Fast-Trackd for Otago's Tarras and Upper Clutha River?

There is a new threat to Tarras and Central Otago. A fast-trackd open pit gold mine (the size of Macraes) proposed by an Australian company who have never operated a mine before. From what the local team at Sustainable Tarras have been able to find out, it's not good news at all. And it's right above the Clutha River.

More details, including how to register to attend meetings in Dunedin and Wanaka, are on [Sustainable Tarras](#)'s website [here](#):

Sue Grey Presents Her Case on Exiting the W.H.O

Lawyer [Sue Grey](#) recently presented on behalf of the NZ Outdoors Freedom Party regarding the Medical Amendment Bill to exit the W.H.O.

A commenter stated on her X account, "The issue is follow the money. The World Health Organization is making the profit from all these products they're pushing onto the New Zealand people that has not been fully tested. Did the vaccine even pass HNSO act? It has contained GE ingredients" Readers will see other useful and supportive comments as well.

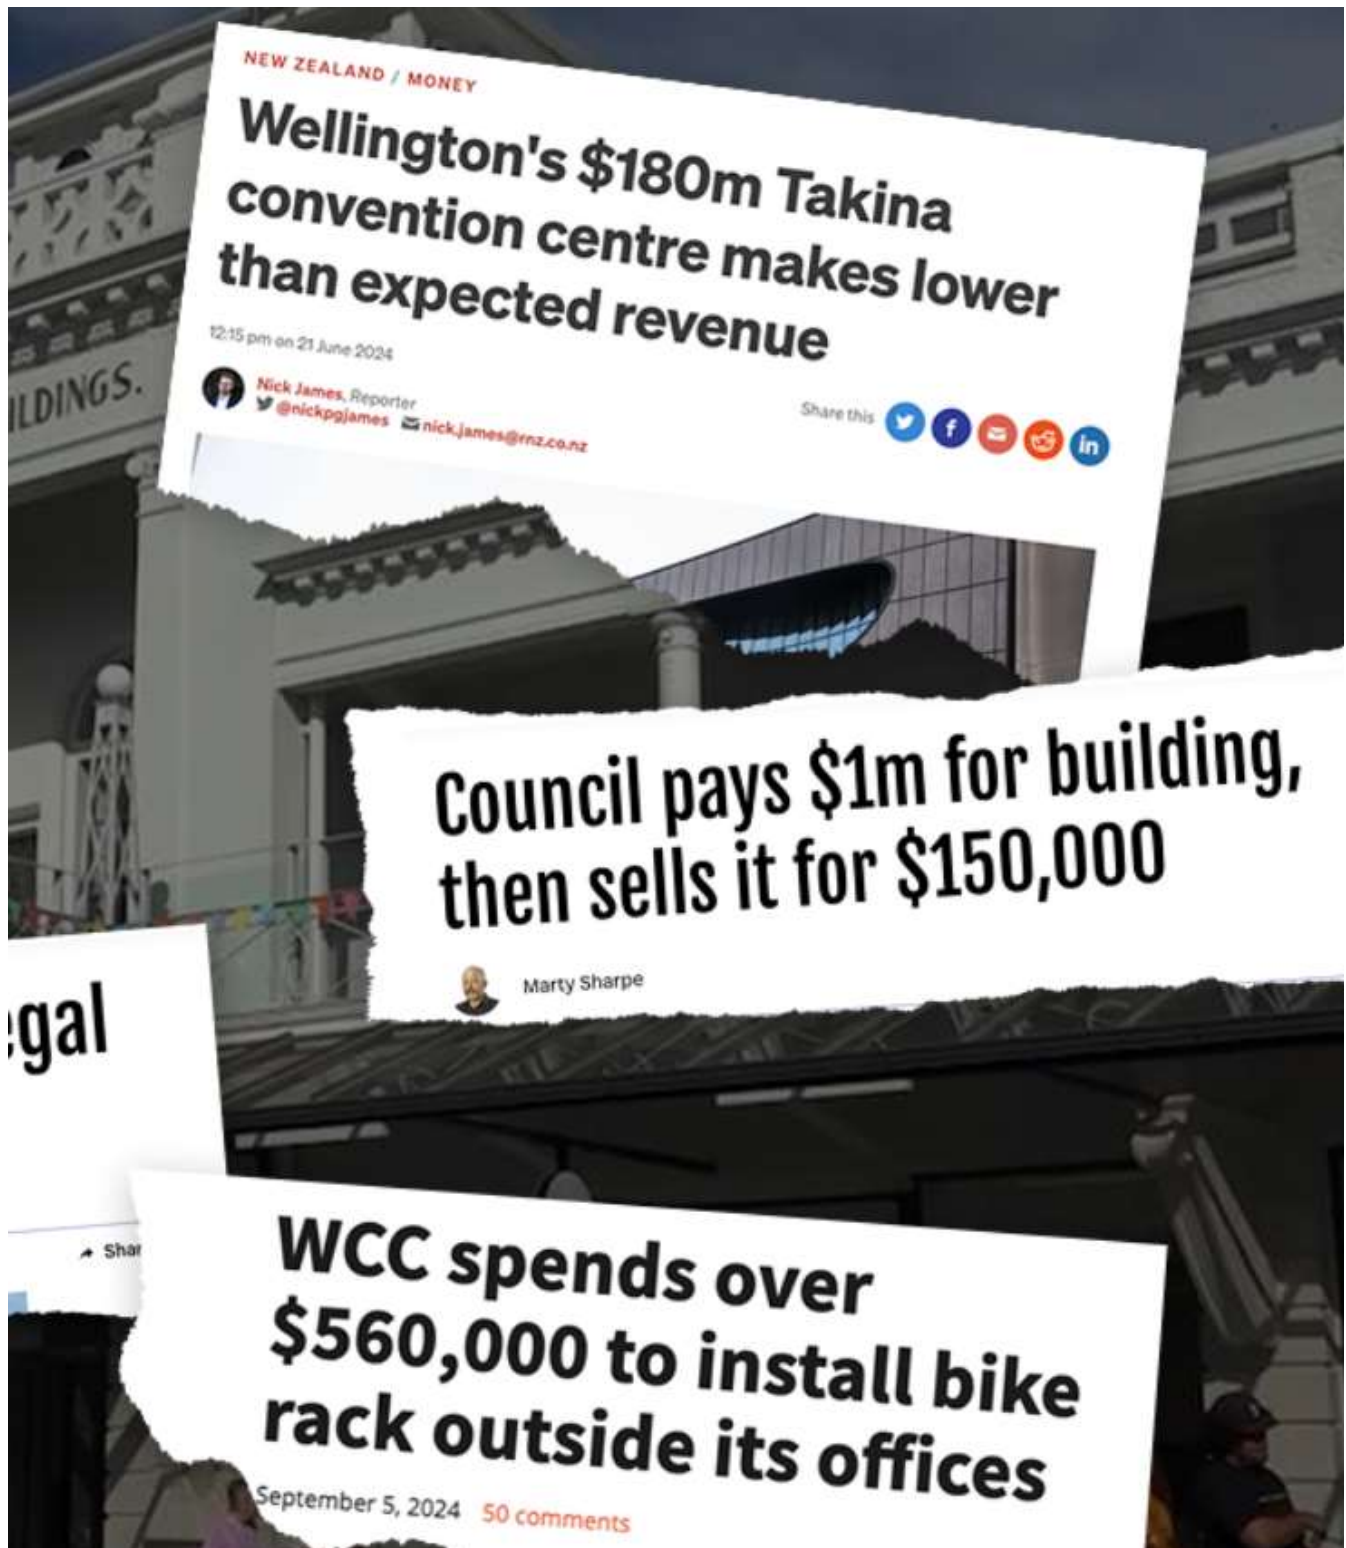

Watch her excellent presentation [here](#):

Editor's Note: When doing a quick search for Sue's webpage, the first seven entries in my search were, not surprisingly, all negative headlines, such as Wikipedia's "New Zealand lawyer and anti-vaccination conspiracy activist", etc. But then, we all know that anyway. Contrast that to the wonderful and supportive comments below her X presentation, and it's so obvious the old media is dying.

It's Time to Take Action Against Out of Control Spending

Councils are wasting money instead of focusing on core services like roads, rubbish and water. The UK and Australia have already introduced capped rates. It's time for New Zealand to do the same. Cap rates. Cut waste. Respect ratepayers. Rates are out of control. The average rates bill has increased 34 percent on average since 2022. Sign the petition [here](#):

INTERNATIONAL NEWS

Neocon Conspiracy Rules

By Martin Armstrong of [Armstrong Economics](#)

The Neocons have circumvented Trump, and they control the Intelligence operation even in Ukraine, which is a primary propaganda operation. As I have said, these pretend people who claim to be champions of Ukraine do not give a damn about Ukraine, this is all to destroy Russia. They have their hands in the Middle East. As I said, I would argue against Bill Kristol back in the '90s when he said that we should take out Saddam from Iraq, Assad from Syria, and Gaddafi from Libya, and this would bring democracy and peace to the Middle East. Let us be honest here. Israel decapitated the leadership of Iran and even wanted to take out the Supreme Leader. This was clearly a regime change in a country with a population of 90 million. Nobody has thought through the end game as they did with Iraq. What comes out of this is going to be unintended consequences. Trump ran on America First and to stop the Neocon endless wars. This is why this is a significant issue of Neocons vs Trump. Read more [here](#):

Japanese Vax Database of 18m Citizens Released It's Not Good News

JAPAN: A COVID vaccine database covering 18 million citizens has just been released for the first time.

After reviewing the data, a top professor warned: "The more doses you get, the sooner you're likely to die." The most terrifying finding was a deadly spike just 3 to 4 months after the final shot. On June 15th, a group of brave Japanese truth seekers did what their government wouldn't, they released a bombshell broadcast exposing vaccine data from over 18 million people. When the data went public, things got deeply unsettling. Dr. Murakami's conclusion was blunt: "...the more doses you get, the sooner you're likely to die, within a shorter period..." It's Out, The Important New Film Worth a Watch

The Agenda: Their Vision | Your Future is a feature-length independent documentary produced by Mark Sharman; former UK broadcasting executive at ITV and Sky (formerly BSkyB). In fiction and fact, there have always been people and organisations with ambitions to control the world. And now the oligarchs who pull the strings of finance and power finally have the tools to achieve their global objectives; omnipresent surveillance, artificial intelligence, digital currency and ultimately digital identities. The potential for social control of our lives and minds is alarmingly real.

The plan has been decades in the making and has seen infiltration of Governments, local councils, big business, civil society, the media and, crucially, education. A ceaseless push for a new reality, echoing Aldous Huxley's Brave New World, or George Orwell's 1984.

The Agenda: Their Vision, Your Future examines the digital prison which awaits us if we do not push back right now. How your food, energy, money, travel and even your access to the internet could be limited and controlled; how financial power is strangling democracy and how global institutions like the World Health Organisation are commandeered to champion ideological and fiscal objectives.

The centrepiece is man-made climate change and with it, the race to Net Zero. Both are encapsulated in the United Nations and its Agenda 2030. A force for good? Or "a blank cheque for totalitarian global control"?

The Agenda presents expert views from the UK, the USA and Europe. See the film [here](#):

Marjorie Taylor Greene Blasts 'Disgusting' MAGA Hawks, Breaks Ranks Over Iran War

Rep. Marjorie Taylor Greene of Georgia is among the few MAGA voices in Congress who is breaking ranks and becoming vocal over what increasingly looks like inevitable American involvement in the Israel-Iran war which is currently spinning dangerously out of control. We earlier detailed that it seems a majority in Congress are either content to let Israel keep pounding Iran as a matter of 'Israel's right to defend itself' or else are outright willing to join the conflict on some level. This as Washington is making moves in clear support of Israel. President Trump himself over the weekend told ABC "We're not involved in it. It's possible we could get involved. But we are not at this moment involved."

And there are widespread reports that dozens of US Air Force tankers have in the last hours taken off from the United States and headed towards Europe, Everyone is finding out who are real America First/MAGA and who were fake and just said it because it was popular. Unfortunately the list of fakes are becoming quite long and exposed themselves quickly. Anyone slobbering for the U.S. to become fully involved in the Israel/Iran war is not America First/MAGA. Wishing for murder of innocent people is disgusting. We are sick and tired of foreign wars. All of them. And this one will quickly engulf the Middle East, BRICS, and NATO as countries are required to take a side. Real America First/MAGA wants world peace for all people and doesn't want our military killed and forever injured physically and mentally. We love our U.S. military and love them helping to secure our borders and our cities for the defense of OUR PEOPLE AND OUR COUNTRY. Read more [here](#):

Trump Building a Bigger Deep State with Help of "Libertarian" Peter Thiel

Donald Trump is helping build a bigger surveillance state, and naturally, he's using taxpayer dollars to do it. Since beginning his second term, Donald Trump has joined forces with the CIA front company Palantir to build a massive new database on hundreds of millions of

Americans. The database can be used in the future to track and search Americans' tax returns, bank accounts, spending patterns, travel, and much more.

For months, keen observers of the American surveillance state like Whitney Webb have warned that the so-called Department of Government Efficiency has provided Trump-linked technocrats with access to private information, with the potential of inputting all that data into a central database. Now, the Trump administration has pushed a new contract..Read more [here](#):

Former Pfizer VP: "Say No Right Now."

Dr. Mike Yeadon, former vice president at Pfizer, implores you to reject digital ID, CBDCs and UN Agenda 2030.

"By 2030, you will not be able to leave [the country], you will not own private transport, you will have a digital ID to do everything, and you will only have electronic money with which to transact."

"I would say, at that point, you are a slave. And because you can see them coming, you should say no. Say no right now." See this interview [here](#):

WINS OF THE WEEK

Political

Grant Abraham has announced his candidacy for Battle River–Crowfoot in the upcoming federal by-election, not as a politician, but as an Albertan ready to fight for our right to determine our own future. Abraham states: "We are no longer asking Ottawa for permission. We are declaring what's rightfully ours:

An end to Equalization - no more shipping Alberta's wealth to fund dysfunction in Ottawa and entitlement in Quebec.

Ending Globalist Policies - Withdrawal from the Paris Accord, we will not bankrupt our industries for the fantasy of Net Zero.

Real sovereignty for Alberta - Reforging our Nation starting in Alberta

Protection of Parental Rights and Childhood Innocence - no more ideological overreach in our schools.

Gun Owner Property Rights - your freedom and your tools to protect it are not up for debate.

Restoring the Supremacy of God and the Rule of Law - not the rule of woke elites in Ottawa.

Abraham says: "These are not just policies—they're the foundation for a sovereign, self-determined West!"

Montana Republican Gov. Greg Gianforte signed a new law eliminating onerous regulations on families who choose to homeschool their children. HB 778 repeals the requirement for homeschool parents to keep immunization records on their children and submit them with county superintendents. For Montana families who homeschool, HB 778 is a shift toward recognizing and respecting the unique nature of home education. Gianforte also signed laws to exclude biological males from women's restrooms, lockers, and showers, and to limit school athletic programs meant for girls to actual girls. Gianforte also repealed a mandate for "gender balance and proportional representation of minorities" in filling state government vacancies, effectively eliminating DEI ideology from state hiring; and most recently he banned activist banners such as LGBT "pride" flags from flying at government buildings.

- <https://www.lifesitenews.com/news/montana-governor-signs-bill-ending-vaccine-records-mandate-for-homeschool-families>

Natural childbirth activist Gloria Lemay is finally released on bail. Lemay is accused of offering unauthorized midwifery services in B.C. and has been held in custody and denied bail since early January 2025. Lemay is 77 years old.

Medicine/Health

U.S. Secretary of Health and Human Services Robert F. Kennedy Jr. announced that the HHS is retiring all 17 members of the Centers for Disease Control and Prevention's vaccine advisory committee. Kennedy wrote - *"Today, we are taking a bold step in restoring public trust by totally reconstituting the Advisory Committee for Immunization Practices (ACIP)."* Kennedy noted that 13 of the 17 sitting ACIP members were appointed in the final moments of the Biden administration. Kennedy explained - *"most members have financial ties to pharmaceutical companies marketing vaccines, or have worked with public health agencies to promote controversial vaccines, including the COVID-19, RSV and HPV shots."* Kennedy wrote that the committee has *"never recommended against a vaccine — even those later withdrawn for safety reasons."* He said the committee has failed to *"adequately scrutinize" vaccines for babies and pregnant women. A clean sweep is needed to re-establish public confidence in vaccine science."* - <https://open.substack.com/pub/tdefender/p/breaking-rfk-jr-removes-all-members-of-cdc-vaccine-advisory-committee-acip>

Dr. Lakshmi Panagiotakopoulos, a pediatric infectious disease expert who helped promote the COVID-19 vaccine to pregnant women, resigned Tuesday from her position as co-leader of a Centers for Disease Control and Prevention working group on the COVID-19 vaccine and is leaving the agency. In an email to colleagues, Panagiotakopoulos said her decision to resign was based on her belief that she is *"no longer able to help the most vulnerable members"* of the population. During the **COVID-19** pandemic, Panagiotakopoulos actively

promoted COVID-19 vaccination for pregnant women. According to Dr. Ben Tapper - *"There's no admission they got anything wrong — just silence and resignations."*

- <https://childrenshealthdefense.org/defender/cdc-adviser-resigns-covid-vaccines-pregnant-women-lakshmi-panagiotakopoulos>

Citizen Action

A non-profit society running four independent Edmonton Christian schools was victorious in preventing a pro-LGBT takeover of its operations after pro-family members voted in new pro-Christian and family board members to bring balance to its board of directors. The non-profit society that runs Edmonton Christian Schools, a network of charter schools that had provided a solid biblical environment for many years until recent infiltration by the LGBT agenda. Once parents heard about what was going on, they put the call out to supporters, asking them to take out memberships and vote for three individuals who wanted to restore Christian values at the schools. - <https://www.lifesitenews.com/news/canadian-christian-school-board-averts-total-lgbt-takeover-after-pro-family-members-rally-to-save-it>

Thousands protested LGBT 'pride' flags in schools on Canada's third annual walk-out day. Families across Canada sent a powerful message by skipping school, holding protests, and praying for an end to LGBT propaganda on the third 'Pride' Flag Walk-Out Day.

- <https://www.lifesitenews.com/analysis/thousands-protest-lgbt-pride-flags-in-schools-on-canadas-third-annual-walk-out-day>

After two Oregon high school seniors refused to share the medals podium with a gender-confused male competitor, nine-time Wimbledon tennis champion Martina Navratilova took to social media to criticize the unfair inclusion of confused males in women's and girls' sports. In 2018, the outspoken lesbian and feminist stunned members of the LGBT world when she pointed out that men should not be able to compete as women. Reese Eckard and Alexa Anderson stepped down from the podium at an Oregon state track and field championship rather than pose with a male athlete. Anderson and Eckard placed third and fourth in the girls' high jump, respectively, while the gender confused male came in fifth. Their protest was not about being personally displaced on the podium but the principle of males competing in female categories. - <https://www.lifesitenews.com/news/martina-navratilova-high-school-girls-were-punished-for-not-sharing-podium-with-transgender-athlete>

Telling It Like It Is / Truth Bombs

Vaccine risk awareness advocate, Laura Hayes, writes in the Age of Autism, a response to Kennedy's retiring of all ACIP members – *"Reconfiguring ACIP should not be (Kennedy's) top priority, as it does nothing to stop the vaccine devastation or restore unfettered rights. If Kennedy is replacing ACIP members because he knows their decisions have been biased, corrupt, bought and paid for, fraudulent, and not sound, then he knows that vaccines have been wrongly approved, recommended, added to the schedule, and required/mandated. And if he knows all that, then the first order of business is an immediate moratorium on each and every vaccine. It is that simple. The focus is misplaced, yet people will cheer, "Yay, the ACIP members are going to be replaced!" We don't need ACIP. What we need is for the vaccine devastation to end, and that means eliminating the cause, vaccines."* The truth is that every day that these vaccines are allowed, our children are being injured and dying.

- <https://www.ageofautism.com/2025/06/breaking-kennedy-dumps-big-pharma-aligned-cdc-advisors-vows-to-earn-back-public-trust-in-science.html#comments>

Jeremy Hammond wrote this week – *"We cannot hope for a top-down solution. It is up to us."*

Dr. Rima Laibow wrote the following comments to US Senator Fetterman in response to his advocacy of the “pride community” - *“These toxic policies essentially take what was learned from the horrifying, and decades-long, experimentation on humans that the CIA carried out as MK Ultra, Project Monarch and related programs to determine how to make people totally controllable and are being foisted on society as “pride” and “love” and “protection” when they are nothing of the sort. Well-intentioned and open-hearted people are being used to further those goals since they do not examine the underpinnings and clandestine realities of what they are actually supporting when they think that they are being kind to a beleaguered minority. They, and you, are not being kind to anyone, despite your clear intention to be so. You see, Senator Fetterman, it turns out that the quickest and easiest way to make people totally controllable is to truncate their psychosexual development by early and repeated sexual trauma, overwhelming their developmental capacities for agency and normal emotional development. That is what the gender ideology and childhood exposure to premature sexualization actually is all about.”*

A two-year investigation by The Lever reveals that the FDA has abandoned its own scientific standards, fast-tracking dangerous and ineffective drugs while leaving patients to suffer the consequences. The report states: *“The FDA approved hundreds of drugs with no proof they worked. The FDA has devolved into little more than a rubber stamp for Big Pharma approving hundreds of medications with shockingly little evidence that they actually help patients. 73% of FDA-approved drugs from 2013-2022 failed to meet the agency’s four foundational standards for proving effectiveness. 55 drugs met only one standard, while 39 met none at all yet they remain on the market. More than half of approvals relied on preliminary data, with no proof of symptom relief, improved health, or extended life. Pharmaceutical lobbying and political pressure have systematically gutted FDA oversight, prioritizing profits over patient safety.”* - <https://childrenshealthdefense.org/defender/fda-approved-hundreds-drugs-no-evidence-they-work/>

Doritos, Froot Loops, M&Ms, Oreo cookies, Skittles, Gatorade, Mountain Dew and other popular snack foods and beverages may soon have to carry warning labels in Texas, if a **“landmark bill,”** supported by U.S. Secretary of Health and Human Services Robert F. Kennedy Jr., is signed into law. **Senate Bill 25** would require some foods and beverages sold in Texas to state that they are *“not recommended for human consumption”* if they contain ingredients that are banned or required to carry warning labels in the European Union, United Kingdom, Australia or Canada. **The bill** names 44 ingredients, including synthetic dyes, partially hydrogenated oils, bleached flour, and some **seed oils** and preservatives identified as contributing to the **chronic disease epidemic** in the U.S. by triggering increases in cardiac disease, diabetes, obesity, cancer and other **conditions**. - <https://childrenshealthdefense.org/defender/not-fit-for-human-consumption-texas-warning-labels-popular-snack-foods>

Jon Rappoport writes this week about the non-existence of viruses. He ponders: *“So here is a Zen question. What is a variant of nothing? Answer: nothing. But is it the same nothing as the first nothing? Is the non-existence of the original COVID virus the same non-existence as that of all the variants? I leave this answer to advanced Zen practitioners.”*

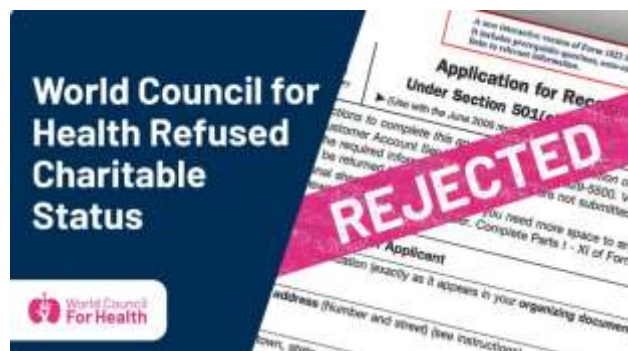

Jeffrey Tucker in an essay entitled – Can the Tyranny Be Soft Landed? writes: *“The people in power in these agencies are pleading for patience. That is not unreasonable. Remember that these few appointees are confronting a beast larger, more entrenched, and better financed than any hegemon in human history. The pharma/media/tech NGO/academia complex is larger and more powerful than the slave trade, the East India Company, Standard Oil, or even the munitions industry that started the Great War. What we really need is the blunt truth about the last five years. We need to know that the people in office, whether elected or appointed,*

still share the deep outrage that fueled the movement that put them in power. We need to hear frank talk about the harms, the mandates, the suffering, the deceptions, the payoffs, the graft, the abuses, the illegal vanquishing of freedom, science, and human rights. History teaches one lesson more than any other. The new regime must be brutally honest about the criminality of the old one and work with focus to dismantle it as fast as possible. Anything short of that leads to its own discrediting and eventual replacement.” - <https://brownstone.org/articles/can-the-tyranny-be-soft-landed/>

Jacques Attali, an advisor to François Mitterrand (former President of France), wrote the following in 1981. This fragment was included in his book “[Brief History of the Future](#)”, published in France in 2006: “*In the future it will be a question of finding a way to reduce the population. We will start with the old man, because once he is over 60-65 years old, man lives longer than he produces and it costs society dearly. Then the weak and then the useless who do not contribute anything to society, and finally the stupid. Euthanasia directed at these groups; euthanasia must be an essential instrument of our future societies. Of course, we will not be able to execute people or organize camps. We will get rid of them by making them believe that it is for their own good. Socially, it is also much better for the human machine to stop abruptly rather than gradually deteriorate. We won’t be able to pass intelligence tests on millions and millions of people. We will find something or cause it; a pandemic that targets certain people, a real economic crisis or not, a virus that will affect the old or the elderly, it does not matter, the weak and the fearful will succumb. The stupid will believe it and ask to be treated. We will have taken care of having planned the treatment, a treatment that will be the solution. The selection of idiots will therefore be done by itself: they will go to the slaughterhouse alone.*”

Finally, the truth breaks through

It's a cold day in hell when The New Yorker drops the performative liberal fangirling long enough to utter a hard truth. Their latest scathing review of Jacinda Ardern's ghostwritten hugfest *A Different Kind of Power* doesn't just pull punches: it finally lobs one square at the face of the myth. And thank God. It's about time someone outside of New Zealand said what millions inside the country have been screaming for years: she didn't "lead with kindness," she led with cruelty wrapped in a smug smile.

For years, Ardern was rammed down the public's throat as the face of "compassionate leadership." In reality, she presided over a government of authoritarian overreach, economic vandalism, and Orwellian lockdowns that gutted our social fabric and shredded our rights. She spun it all in soft lighting and... Read the rest of this story [here](#):

And in more Ardern News:

I have to say, I am most impressed with Kiwis for bringing humour and dedication to the #TurnArdern campaign.

Faced with the grim reality of having to witness Cindy's triggering mug on the shelves, people are responding in the best way possible: not only turning her book around, but turning up the creativity!

From full 180 hideaways, crime section relocations, and brilliantly cheeky shelf companions (Monopoly guy, you deserve a medal!), the peaceful protest is well and truly on.

Let's build a thread of the best #TurnArdern moments... Got a screenshot? Drop it in the comments and spread the joy [here](#):

**And Lastly on Ardern News:**

Ardern blames Russian disinformation for 2022 NZ protests; critics reject claim as a baseless "conspiracy theory".

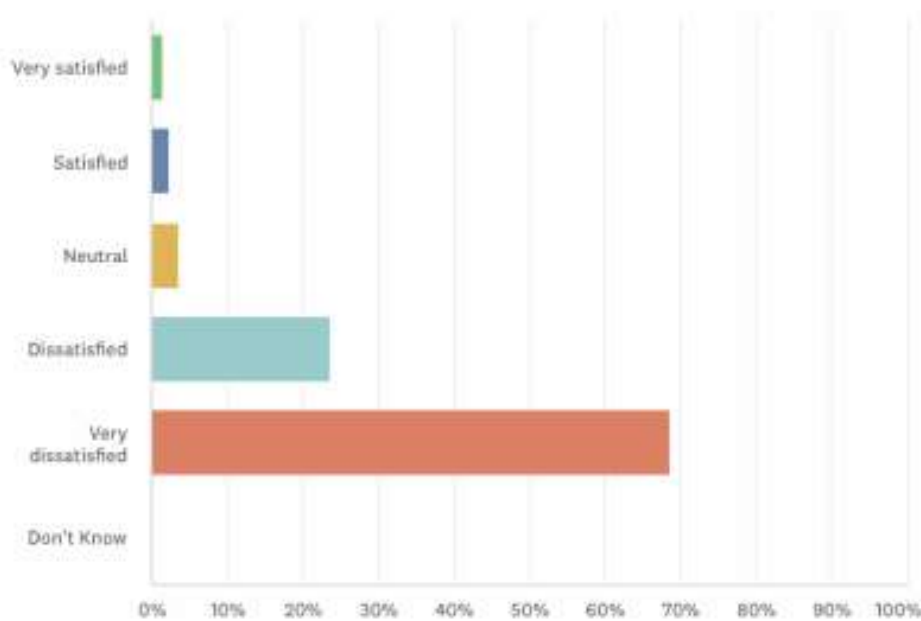

Former PM Jacinda Ardern has stirred controversy after suggesting Russian disinformation played a significant role in fuelling New Zealand's 2022 anti-mandate protests.

Speaking on the Pod Save the World podcast, Ardern claimed New Zealand was among the top consumers of "Russian disinformation" in early 2022, alongside the Solomon Islands. See the Daily Telegraph piece [here](#):

Ombudsman Forces Release of Council's "Trust Survey" - Council Claims 17% Trust Rating

Please rank QLDC by the following performance measure: Overall council performance.

Answered: 1,547 Skipped: 1

ANSWER CHOICES	RESPONSES
Very satisfied	1.55%
Satisfied	2.26%
Neutral	3.68%
Dissatisfied	23.59%
Very dissatisfied	68.65%
Don't Know	0.26%
TOTAL	1,547

A [Crux](#) complaint to the Chief Ombudsman has forced the release of a March 2025 survey that measures the level of community trust and confidence in the Queenstown Lakes District Council.

The survey only received 445 responses of which only 405 were "selected for reporting." QLDC does not explain the criteria for rejecting 40 responses.

A 2024 Crux survey that replicated the Council's previous trust and confidence survey (dropped in 2024 following a 15% 2023 score) received 1,547 responses and showed a trust and satisfaction level down to 4%. Read the story [here](#):

The Nudge Towards Digital ID

They will sell it to everyone as “for your own good” or “for your safety” or “for your convenience”. But actually it’s a scam for them to seize more control, data harvest and transfer huge amounts of wealth. See more [here](#):

Protests against 15-Metre Cell Tower

About 30 residents gathered last week to protest a cell tower being built outside a residential property on Seymour Rd in Gisborne. Photo / James Pocock

Residents of a Gisborne street protesting a 15-metre cell tower going up outside a home have blocked work from progressing more than once since it began.

They say they are frustrated the district council and company did not consult with them, and some believe the tower could have health impacts.

Euthanised During Covid

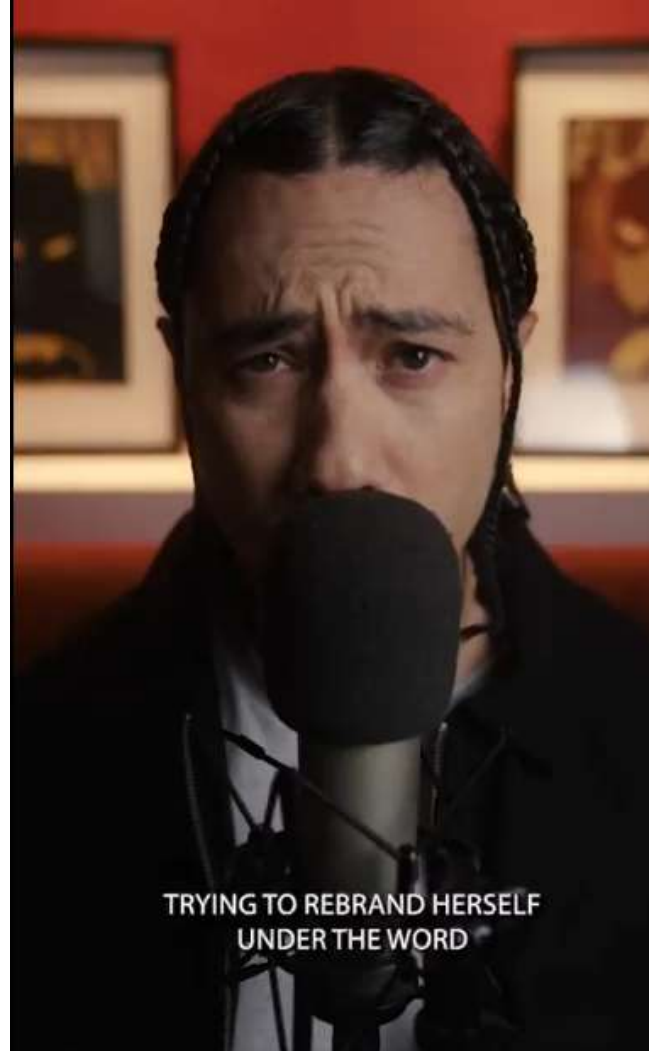

Dr. Mary Talley Bowden, interviewed by Joe Rogan, Reveals COVID Patients Were Euthanized to free up beds. Bowden stated, "There's actually a lawsuit today that's the first jury trial in the country over these hospital protocols where they had a young woman with Down syndrome. They basically euthanized her. They gave her a DNR order, even though she didn't have one." Rogan then asked, "They euthanized her for what?" Watch the interview [here](#):

Reform in Government Is the World's Biggest Challenge

What is your sense so far of Trump 2.0? Everyone has an answer these days. It's likely quite intense too. That is because the arrival of Trump in Washington for a second time has engaged the public as civic spectators more than ever

Sesh Says it Like it is, Again

If you've not heard "Sesh", he's a gem, and says what we all think, in a very articulate way. Go Sesh. See his latest [here](#):

before. We have information systems in place that give us real-time access. We can watch the cabinet meetings, the press conferences, the events, even as they happen, and through many different sources. This is access without precedent. One thing has become clear: reforming the government is even harder than we had believed. The first 100 days were for the ages. The appointments have been smart and high level. Many executive orders have been inspiring. The expectations for great progress have been extremely high. Read more [here](#):

Paid Protestor Testimony

Another TikToker reveals they were offered \$200 to join the nationwide “No Kings Day” protest in NYC—targeting ICE and President

Managed Retreat or Land Grab?

The Industry of Managed Retreat — a powerful new RCR documentary from director [Alistair Harding](#).

As councils prepare to relocate entire communities based on extreme climate modelling, locals are speaking out about flawed flood plans, vanishing insurance, and a growing sense of betrayal. Is this really about safety — or something more sinister?

🏠 If you own or live in a home in New Zealand, you need to see this.

One commentor on X adds, Managed Retreat is part of Agenda 2030, SDG's or Sustainable Development Goals.

Once you realise that Climatecon is Real Lies then you start to see all these supposedly good intention actions all joining a much bigger agenda of Control:

🔪 Public screenings kick off this weekend in Palmerston North and Kāpiti. See the trailer [here](#):

"I've just joined a secret society... I can't tell you how excited I am about it."

San Francisco Protesters Spell Out 'No King' With Sidewalk Poop

SAN FRANCISCO, CA — In an inspiring display of solidarity to voice their opposition to President Donald Trump's policies, San Francisco protesters spelled out "No Kings" with sidewalk feces.

Thousands of the city's residents gathered downtown over the weekend to show their displeasure with Trump's immigration agenda, using the copious amount of human waste scattered around on the surrounding sidewalks as their medium of expression. "This will show Trump how much better off we are without his policies!" shouted one angry San Franciscan. Read the rest of this important story [here](#):
