WHAT IS NEW ZEALAND RISING?

New Zealand Rising is an alliance of separate groups and individuals from all across New Zealand who believe in a better future. We are many different people with different views, however we all share a common vision for the future.

"We, the people, stand united for a New Zealand that is respectful, includes everyone, and is free of government overreach."

"Kia tūkotahi tātou ō Aotearoa, hei whakarangatira tātou i a tātou. Herea te Kāwanatanga, kia kore e pēhia te mana o te tāngata."

NZR Directory of all groups around New Zealand that share this vision are on [our website](#) **Newsletters**, past and present can be viewed and downloaded [here](#).

Letters to the Editor, send to newzealandrising@proton.me

Donate to NZR today to help defray email & web-hosting costs. Use the details below and flick us an email of the good news! Thanks in advance.

[DONATE TO NZ RISING](#)[DETAILS: NZR 06-0169-0214362-](#)[02](#)

From the Editor:

A book that's circulating around our local freedom community here in Wanaka lately is entitled "180 Degrees: Unlearn The Lies You've Been Taught To Believe." The quote in our header is from the back cover of that book, and I felt it's a perfect antidote to tough news. Although there is good news, this is a grunty issue, with the humour section pulling us out at the end. But remembering that the truth will come out, and that makes it all worthwhile.

NZ NEWS

NZ Grants New Surveillance Powers to Police

From: [True Stories from The Health Forum NZ](#)

For the FIRST time, NZ police to be given the right to PHOTOGRAPH YOU IN PUBLIC SPACES AND STORE THE IMAGES.

Yes, they will have the right to photograph you when you attend a protest (for example) and store the images for any future police use.

Quote:

Privacy Foundation committee member and spokesperson on surveillance Gehan Gunasekara said the changes around photos extended police powers beyond what they've ever been, rather than granting them back. See the post [here](#).

See the RNZ story entitled Fears of 'surveillance state', as police regain right to photograph public, retain images [here](#).

NZ Gene Technology Bill Select Committee Report Now Released....Bad News For Discerning Consumers

From: [True Stories from The Health Forum NZ](#)

By Lynda Wharton

This morning I used AI to analyse the 196 page document from different perspectives....one of which is from the perspective of a New Zealand consumer who wishes to ensure they do not consume any products with genetically modified organisms.

The AI summary states:

From the perspective of a CONSUMER WISHING TO AVOID GMOs, the Gene Technology Bill, as amended by the Health Committee,

SIGNIFICANTLY WEAKENS YOUR RIGHTS AND PROTECTIONS.

The lack of mandatory GMO labelling, combined with broad exemption powers (clauses 162B and 163), risks introducing GMOs into the food supply without clear identification, undermining your ability to make informed choices.

Transparency measures, such as the public register and annual reporting, are technical and inaccessible, failing to provide practical information at the point of purchase. See the post [here](#).

NZ First To Withhold Support For Gene Tech Bill Unless Major Changes Are Made

ACT and New Zealand First have both raised concerns about the government's Gene Tech Bill despite supporting changes included in a select committee report. All parties raising concerns agree New Zealand's laws and regulations governing gene technology do need to be modernised, but disagree over what the final bill should look like.

NZ First confirmed to RNZ that while the party supported the changes present in the select committee report it would not support the bill into law without further major changes.

"New Zealand has a pre-eminent position in markets as a 'GE Free Nation' and this should not be traded lightly," the NZ First differing view states. Read the full story [here](#).

NZ Farmers Head to Parliament for Gene Tech Bill Protest - Join Them

From: [NZ Farming](#)

There will be a protest on Tuesday Nov 4th at 11:30am at Parliament in Wellington in support of those parties opposing the Gene Tech Bill.

Anyone that can make it please do. We need to send a strong message that this Bill is not acceptable for NZ, our economy or our people.

There will be tractor (and other vehicle) convoys to Parliament for the event. We'll be ramping this up on social media soon. Watch [this space](#). Bring ya tractors!

See their post [here](#).

NZDSOS added [on X](#): This is our generation's nuclear-free moment. For more information contact GE Honesty [here](#).

And also this from GE Honesty:

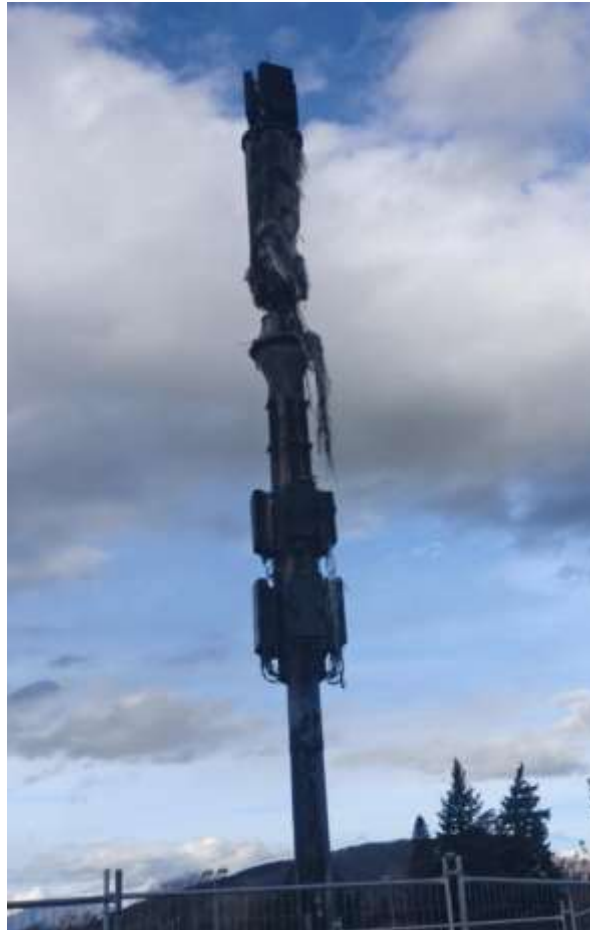

97% of Kiwis said NO to the Gene Tech Bill. But the Government's just ignored you - recommending they push it through anyway.

The Health Select Committee's report dropped yesterday, and surprise, surprise - almost nothing's changed.

They're not listening. So it's time to remind them who they work for.

Cell Towers Under Attack in Wanaka

Police Investigate Fourth Cellphone Tower Fire in Wānaka

A reporter at the scene on Wednesday morning said there were two towers in the area, with one completely damaged while the other only partially.

Police and staff from contractor Downer were still at the scene by 10am today.

One NZ head of sustainability & corporate affairs Nicky Preston said the attack was the second mobile site in as many weeks to be deliberately damaged by arson.

She said the tower had been "completely destroyed", and it would be at least four weeks before it was rebuilt. See the story [here](#).

And see Clay Drummond's coverage of the event [here](#).

Editor's Note: I couldn't resist reflecting on the similarities of the image above and the one below of an empirical walker being brought down by the rebels in Starwars.

Winston Peters Clashes With Seymour Over Fonterra's Proposal To Sell Rands To French Company Lactalis.

From: [Holyhekatuiteka](#)

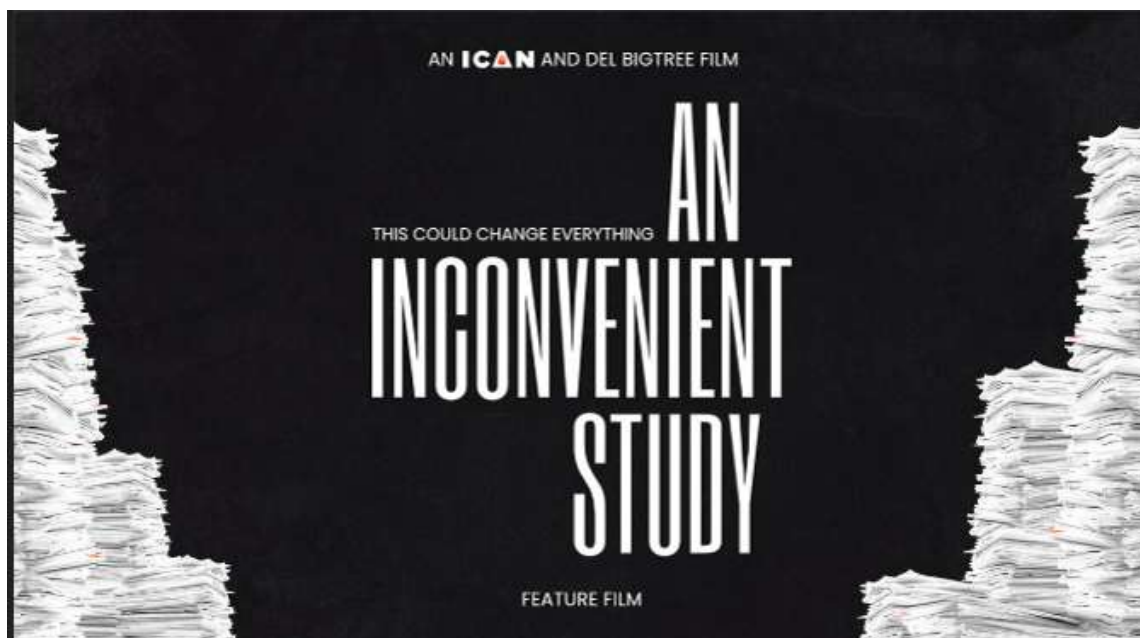

Winston Peters (Nationalist) has clashed with David Seymour (Globalist) over Fonterra's proposal to sell retail brands like Mainland and Anchor, and other assets, to the largest dairy corporation in the world, French company Lactalis.

"Fonterra. I'm saying, have enjoyed by statute and by Parliament the position of a monopoly privilege and now you're selling it and claiming it's all of your own right'. No, it's not. It's the right of the New Zealand people" said WP.

Seymour who along with National favoured selling off our Power companies and wants to sell off what little state assets we have left after the next election and along with Luxon and Hipkins has welcomed Blackrock investment, criticised WP for getting involved in the subject, resulting in WP saying "I milked cows for 20 years" Shane Jones and most of my party milked cows, Seymour doesn't even know what one end of the cow looks like . See W. Peters' post [here](#). and see Holyhekatuiteka's post [here](#).

INTERNATIONAL NEWS

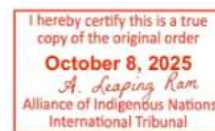

This Could Change Everything

In 2016, journalist Del Bigtree issued a challenge to the head of infectious disease at one of the most prestigious medical institutions in the world: conduct the most thorough vaxxed vs. unvaxxed study that has ever been done. The expert took up

the challenge and ran the study to prove Del wrong. That study never saw the light of day... until now. See the movie [here](#).

Indigenous Nations Issue Order: "mRNA Nanoparticle Injections Are Biological Weapons"

Declaration of the A.I.N. International Tribunal

WHEREAS the relationship between CANADA and the Un-surrendered Indigenous People is still Nation to Nation per [Calder et al. v. Attorney-General of British Columbia](#), [1973] (SCC) SCR 313 CanLII, [R v Sioui](#), 1990 CanLII 103 SCC and [R v. Cote](#) [1996] 3 SCR 139;

Alliance Of Indigenous Nations International Tribunal Issues Order: "mRNA nanoparticle injections, are in biological and technological weapons of mass destruction"

The world's first this governing body and judicial authority declares MRNA weapons of mass destruction! The alliance calls on mankind to unite to stop global biowarfare, depopulation, and transhumanism. The Alliance of Indigenous Nations (A.I.N.) International Tribunal is the first governing body and judicial authority in the world to issue an "order" of this type.,

In addition to legal briefs and scientific studies, the Alliance reviewed affidavits filed in a current case in the Florida court system by Ana Mihalcea, M.D., PhD;... Read the rest of this article [here](#).

'Sex' Now Replaced With 'Gender' In Human Rights Law

'Sex Now Replaced With 'Gender' In Human Rights Law

A glimpse into how we ended up in the dystopia of affirming 'gender' and turning our back on biological truth. They have planned this out over decades.

One Of Those Rare Times When Legacy Media Forget To Turn Off The Comments

These screenshots are from the comment section on Newstalk ZB. Normally the comments are turned off. This one occasion, someone had forgotten to do so, and the truth popped out. It must be embarrassing. The post, complete with all the comments is sourced by Claire Deeks, co-founder of [Voices for Freedom](#) See this post [here](#).

This is Why NZ Let Kids Be Kids' Penny Marie Went to DC

Liz Churchill ✓ @liz_churchill10 · Oct 8

“We’re not going to take your child and change their sex...”

President Trump lectures Canadian Dictator Mark Carney on the Horrors of sexually mutilating children knowing that Dictator Carney sterilized his own child.

From: Penny Marie, Let Kids Be Kids

This is why I just spent two weeks in Washington DC. I needed to see for myself who some of the people working for President of the US were. I came, I saw, I felt it.

They have solutions. But they need us all to help. Then take the 🔥 back home. See Penny's post [here](#).

Whitney Webb on Digital ID's

From: Wide Awake Media "One of the main reasons for this coordinated global push to develop digital IDs is because it's deemed essential to... Agenda 2030." Investigative journalist Whitney Webb on the lockstep supranational push to roll out digital ID and CBDCs. "CBDCs and digital IDs are meant to go together. And without digital IDs, the CBDC digital finance system cannot exist." "They have to know who you are. And so they want to have your wallet tied to a digital ID, and have that digital ID be mapped to your physical ID through the biometric data collection." Webb also stated [here](#), "If people refuse to comply with digital ID, it will fail."

See the interview [here](#).
