WHAT IS NEW ZEALAND RISING?

New Zealand Rising is an alliance of separate groups and individuals from all across New Zealand who believe in a better future. We are many different people with different views, however we all share a common vision for the future.

"We, the people, stand united for a New Zealand that is respectful, includes everyone, and is free of government overreach."

"Kia tūkotahi tātou ō Aotearoa, hei whakarangatira tātou i a tātou. Herea te Kāwanatanga, kia kore e pēhia te mana o te tāngata."

NZR Directory of all groups around New Zealand that share this vision are on [our website](#)

Newsletters past and present can be viewed and downloaded [here](#).

8. Essential Reading
9. Keeping a Sense of Humour Perspective

From the Editor:

When we formed NZ Rising, it was clear that peaceful civil disobedience was going to be a key tenet. I think I can speak for the other founders, that we also agreed that the only way forward out of this mess, is a spiritual path. I'm optimistic because the alternative is not an option. Here's the full quote from Richard Enos, founder of [The Commitment Club](#) – "My point is that anyone reading this has within them the power to help direct the future of humanity. Anyone who is dissatisfied with the state of the world—as managed by those powerful few that we have somehow given permission to rule us—need only live their own lives better, more authentically, in alignment with their own internal compass, if they are seeking to create positive change. When each of us plays our part in this epic drama on planet Earth, our entire civilization will move inexorably towards the world of our dreams. But I believe . . . that our history flows between the concealing of truth and the revealing of it. Now, the more ready we become, the more that is revealed to us, until such time as the ultimate truth dawns on us: that we always had the freedom and the power to create exactly the kind of world we wanted to live in, we just didn't know it." - Special thanks to Canada's [Freedom Rising](#) for including this quote in their recent Wins of the Week. NEWS FROM NZ RISING MEMBER ORGANISATIONS

The Podium of Truth is Wobbling

From: NZDSOS Media Team

The Walls Are Closing In: Media Finally Asking the Questions They Should Have Asked Five Years Ago

Since 2021, NZDSOS has been horrified at the liberties being taken with truth, ethics and science in the name of the imperative to mass vaccinate NZ with the modified mRNA covid gene product.

For those same years, the mainstream media – propped up by the Public Interest Journalism Fund (PIJF) – parroted the government’s “safe and effective” line.

But now commercial media outlets Newstalk ZB and the NZ Herald are starting to uncover the story. The tide is turning, but the question is: why did it take so long? Read the post [here](#).

The Truth Is – It Was Never About Health The Reality Behind Covid-19 in NZ

By: Mary Hobbs Guest Post for NZDSOS

It has been three weeks since the disappointing results of the Royal Commission of Inquiry 2 (RC-2) were made public. As we know, the RCI-2 was presented with thousands of pages of factual evidence of harm, injury and death, including a 382-page report by NZDSOS entitled, Critique of the Official New Zealand Covid Response with a Focus on the Use of Vaccines: What the Evidence Says, and a 250+ page report from RCR/VFF entitled The People's Position. Lynda Wharton of The Health Forum collated and presented a dossier of many hundreds of pages of harmed and bereaved New Zealanders. Each was studiously checked and confirmed correct. There were thousands more, including from Dr Guy Hatchard, the Nurses Collective, the teachers and other professionals. It was damning factual information. Over 30,000 New Zealanders made submissions, with a vast number who provided heart-felt evidence of serious harm and/or bereavement after they or their loved ones received an experimental gene-tech jab that Dr David Martin defines as a bio-weapon. (It was falsely labelled a 'vaccine' and people were incorrectly told it was 'safe and effective'.) Read the full article on NZDSOS' Website [here](#).

There's a Reason For All This Madness An Inspirational Interview - Don't Miss It

By: Randall Richards, [Mountain Spirit Media](#) & [NZ Media Collective](#)

[Liz Gunn](#) and Canadian [Comic/Teacher](#) and Philosopher Alexander Lasarev did an amazing Part 1 interview one year ago on Covid, humour and spirituality, and on how to keep one's head, and heart in one piece during these trying times. Liz was asking just the right questions, and Alex was spot-on during the whole interview. The video opens with viral clip of Alex using humour to wake people up by calling out pedestrians on a Canadian urban street wearing masks and standing too close together. Suddenly, an angry fellow comes up to the car, swearing at Alex, and starts bashing the car window with his bicycle, eventually breaking the glass. The angry attacker, it turns out, was a public figure in British Columbia and the consequences of his behaviour caught on tape were unpredictable and a serendipitous blessing in disguise. Learn more at the end of the interview. I won't spoil it. Liz and Alex cover a lot ground in this very inspiring interview. As Liz writes, "Alex is a free-thinking comedian and philosopher who speaks freely about his experiences of the last four years, in the wake of the government enforced Covid madness." Alex states in the interview, "The planet was in such a deep sleep, disconnected from divinity. We had to manifest the pandemic to wake us up. That's how asleep we were." Alex speaks the truth with laser focus. As it turned out, I stumbled on this interview because the founder of [Jam for Freedom](#) recently contacted me asking if I'd reach out to Alex as he's planning a tour here in New Zealand and we have a [NZ chapter of JFF](#). I agreed to get in contact and help in any way. When I looked at [his link.tree page](#) in the list of interviews, I noticed this one with Liz. It's not to be missed. Watch [here](#).

NEW ZEALAND NEWS

VFF and RCR's Webinar on The Current Fuel Situation

RCR's (Reality Check Radio) webinar, **New Zealand's fuel vulnerability**, was recently hosted by Maree Buscke and featured Alia Bland, Larry Blair and Lester Bryant, examines New Zealand's fuel vulnerability amid global supply disruptions. The panel warn shortages could emerge within days, particularly in rural areas, highlighting the country's reliance on imported fuel and limited refining capacity. Broader impacts on supply chains are discussed, alongside potential responses including alternative energy options, policy shifts, and the need for stronger community resilience. Watch [here](#).

Editor's Note: If anyone would like to explore this issue further, **NZ Rising is hosting a Public Zoom on this Tuesday, 14th, 7:30pm**. Everyone is welcome to attend. **See details below in our EVENTS section.**

Stop Random Roadside Testing Human Rights Breaches Now

PLEASE SHARE

Ministry of Justice confirms it reviewed *no* scientific or accuracy information for roadside drug testing

Today the Ministry of Justice (MoJ) provided clarification on its decision to transfer key parts of my OIA request about the roadside drug-testing regime.
The Ministry has now confirmed:

Here's a clear breakdown of how they're made:

1. Making antibodies to *small drug molecules* (like THC, cocaine)

Drugs such as THC or amphetamine are too small to trigger an immune response on their own. So scientists first create a "hapten-carrier complex":

- The drug (or a close chemical analogue) is chemically linked to a large protein (e.g. ...)

From: New Zealand Outdoors & Freedom Party

Well done Nigel Gray for your work exposing the lack of accuracy of information on roadside testing.

We looked into this further.... Turns out there are many SECRETS (aka commercial sensitivity) but the best information indicates the antibodies used in New Zealand random roadside tests are GENETICALLY MODIFIED using recombinant DNA technology and cells from other species...and they give FALSE POSITIVES beyond the target substances. So...not only did Parliament change the law contrary to human rights advice from former Attorney General Judith Collins and the New Zealand Law Society, but the test they chose raises serious ethical and justification concerns because it reads positive for the presence not just of target substances. ... NZ Has Endless Amounts of Oil That Has Been Secretly Hidden From the Public For Decades

From: Jason Barnett on Facebook

18th May, 1967: Texas oil billionaire Nelson Bunker Hunt, using a sophisticated satellite technique to detect global deposits, discovers a huge oil source south of New Zealand in the Great South Basin.

10th June, 1967: Hunt and New Zealand Finance Minister reach an agreement: Hunt will receive sole drilling rights and Muldoon will receive a \$US100,000 non-repayable loan from Hunt's Placid Oil Co.

8th September, 1967: Placid Oil is granted drilling rights to the Great South Basin.

10th May, 1968: Hawaiian meeting between Onassis and top lieutenants William Colby and Gerald Parsky to discuss establishment of a new front company in Australia - Australasian and Pacific Holdings Limited - to be managed by Michael Hand. Using Onassis-Rockefeller banks, Chase Manhattan and Shroders, Travelodge Management Ltd sets up another front to link the operations to the US. The Global Banking Shift And How it Affects NZ Cash & CBDCs - Where Are We Headed? Read Up & Have Your Say

From: Gabrielle NZ Rising Member, & Posted by Mountain Spirit Media

The Reserve Bank of New Zealand is consulting on a proposed cash services standard.

Objective:

1. Ensure ongoing access to cash services (withdrawal, deposit, change)
2. Maintain a minimum level of service coverage nationwide
3. Address declining access due to branch and ATM reductions

Consultation remains open (extended to July 2026).

INDUSTRY RESPONSE

Public opposition to the proposal has been expressed through the New Zealand Banking Association.

Key points raised:

1. Proposal described as high cost
2. Concerns about feasibility and efficiency
3. Preference for voluntary / industry-led solutions

GOVERNMENT POSITION

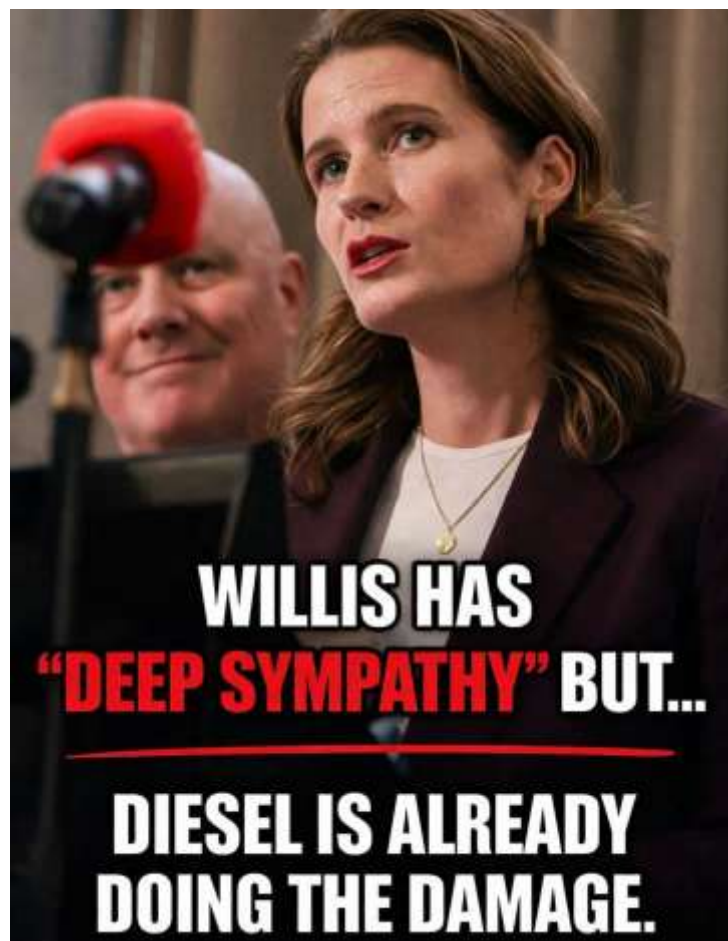

Nicola Willis has publicly indicated:

1. Banks were not given sufficient notice prior to consultation

Read more and have your say [here](#). Click the image below for the survey.

Scrap the RUCs (Road User Charges)

Finance Minister Nicola Willis says she has “deep sympathy” for diesel users — but has provided no temporary RUC relief.

The reason? It would reduce funding to the National Land Transport Fund.

At the same time:

- The Government says NZTA will invest \$5.5 billion in pothole prevention on state highways and local roads
- New Zealand relies on imported fuel and imported bitumen after domestic bitumen production ended in 2021

This is a system under pressure from both sides — rising costs and locked-in funding. Diesel prices are now equal to and/or HIGHER than petrol in places.

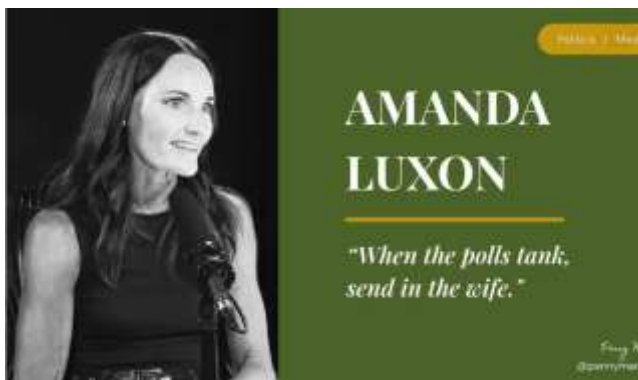

RUCs still apply on top. That's not balanced. That's not sustainable.

C.A.F.E.S has received an offer to table the below once the Parliament petition is finalised.

See that [here](#).

Take action [here](#) so we can get this tabled.

The Amanda Strategy: How Chris Luxon Is Using His Wife to Save His Political Skin

By: Penny Marie

Are we witnessing organic "feel good" stories about the PM's wife? Or is it something else? And why does the New Zealand media call her our "First Lady"? We don't have a First Lady. So why does the media keep saying we do?

Before we get to the heart of the matter I really want to discuss, there's something that needs to be said about how Amanda Luxon is being portrayed, weirdly, as a First Lady. Read the full article [here](#).

Reserve Bank Looks Like Backing Down From Dramatic ATM Proposal Amid Backlash

The Reserve Bank appears to be walking back its controversial proposal to require banks to set up as many as 3000 more ATMs throughout the country. The regulator is consulting on a proposal to get banks to dramatically increase their physical footprint to make it easier for customers to withdraw. Read the rest of this story [here](#).

For these events listed, also see the posters below.

- **New Zealand's Future Fuel Supply** NZ Rising Public Zoom Meeting, Tue, Apr 14, 7:30pm Use the invite link [here](#) to attend.
Meeting ID: 857 0771 8411 Passcode: 025297
- **Heart of the Protest Book Launch** Wed, 22 Apr, 3:45pm Rolleston
- **Holistic Health Market**, 18 Apr 10am Bethlehem Hall, Tauranga
- **Wellness Hub**, Wed 10:30 Ostend Hall, Whaiheke
- **Kereru Health Hub/Market** Every 2nd Sun, 4th Fri, Kumeu
- **Oratia Health Hub** Every Tue 10:15am-1:30pm, Oratia
- **Whangarei Health Hub Wellness Day**, Every Last Sat 10:am Old Library
- **People's Health Alliance**, Every Last Wed, The Garage, Athenree
- **Schuessler Tissue Salt Talk**, 12th Apr, 12pm Kumeu Centre, Auckland

"New Zealand's Future Fuel Supply" NZ Rising Public Zoom Meeting Tue, Apr 14, 7:30pm

New Zealand's Future Fuel Supply NZ Rising Public Zoom Meeting **Tue, Apr 14, 7:30pm**

With the current state of the world and particularly the impacts of the fuel pricing we thought it was a good time to reconnect. A Public Meeting

Guest Speaker - Lester Bryant - Energy Spokesperson for Outdoors and Freedom Party.

Originally from South Taranaki, Bryant's career is rooted in the practical realities of New Zealand's primary and energy sectors. From his early years in the Taranaki oil and gas fields to helping build the Maui platform and commissioning petrochemical plants in Queensland, he

has developed a deep, hands-on understanding of energy infrastructure. His background includes eight years in the New Zealand electricity generation industry, specializing in high-voltage plants and heavy electrical equipment.

You may have heard Lester recently on RCR. We have a number of questions for Lester and you may also regarding the facts about the petrol and diesel crisis.

We invite you and your friends/contacts/community to attend the meeting.

The Zoom meeting link is [here](#).

Meeting ID: 857 0771 8411 Passcode: 025297

Heart of the Protest Book Launch

Te Ara Ātea - Rolleston Library, 56 Tennyson Street, Rolleston

Wednesday 22 April 2026 3:45pm-6:00pm

Join us late Wednesday afternoon at the Rolleston Library for a short talk and readings from the recently released book Heart of the Protest. We will have books available for sale after strong pre-sales — over 1000 sold and delivered in the first week of release! Get your book personally signed. Already bought a book? Bring it along for signing!

From screen to page. Following the success of the documentary River of Freedom, a powerful new book — Heart of the Protest — takes readers behind the scenes of one of New Zealand's most significant uprisings. Co-authored by local Selwyn filmmaker Gaylene Barnes, director and editor of River of Freedom, and Tākaka writer and publicist Siân Clement, Heart of the Protest features personal accounts and researched details of the events and motivations that shaped the 2022 Parliament Protest. More info [here](#).

Editor's Note: When I asked Co-author Siân Clement if she the book would be in most libraries, her reply was, "Well, it's in quite a lot of libraries so far, but for those who don't have it yet, if people request the book, the more the libraries will have to bend to the will of the people!"

Whole Foods Market, Others, Knowingly Sell 3-D Meat Under Cover

Editor's Note: My wife vaguely remembered hearing this story about some guy's daughter, a professional chef, who confronted an employee at Whole Foods Market after she discovered she had been sold fake meat. It took a little digging, but here's the story. I wonder if this could be happening in New Zealand as well.

From: Michael S. Gibson

Fake Meat Is Already In Stores, Aldi, Whole Foods — And Most People Don't See It

Everyone is waking up to toxic food...so what happens next? They adapt.

Brands you trusted... names you believed in...start changing behind the scenes.

Same packaging. Same reputation. Different product.

And most people never question it. Here's the reality:

If something looks off... feels off...there's a reason.

Because once you control the food...you control everything that comes after it.

Health. Energy. Longevity. This isn't about fear. It's about awareness.

Start paying attention to what you're buying. Start questioning what you're eating. Start making conscious choices for you and your family.

Because the difference between real and fake...is getting harder to spot every day. See this incredible story [here](#). and more on the story by Gibson on YouTube [here](#).

Former Pfizer Chief Toxicologist Testifies: Shots Skipped Proper Cancer Risk Checks

Former Pfizer Chief Toxicologist Dr. Helmut Sterz testified in the German Parliament on March 19, 2026.

He straight-up said the mRNA COVID shots skipped proper cancer risk checks because of 'time pressure.'

And for mass production? They switched to a bacterial process that left 'significant contamination' with bacterial DNA in the vials.

He called the whole rollout a 'vaccination tragedy' and estimated tens of thousands of excess deaths in Germany alone.

If even insiders from Pfizer are now saying it should never have been approved this way... what else are we still not being told? Read more [here](#).

Fauci: Corporations Require Vaccinations, & Making It As Hard As Possible On Citizens So They're Forced To Be Vaccinated

Uncovered audio shows Anthony Fauci talking about having every major corporation require vaccinations and making it as hard as possible on citizens so they're forced to be vaccinated. He says if you make it hard enough on people, they'll abandon their beliefs. This is evil.

“Once people feel empowered and protected legally, you are gonna have schools, universities and colleges are gonna say, you wanna come to this college, buddy? You're gonna get vaccinated, lady. You're gonna get vaccinated. Big corporations like Amazon and Facebook and all of those others are gonna say, you wanna work for us? Get vaccinated. And it's been proven that when you make it difficult for people in their lives, they lose their ideological bullshit. And they get vaccinated.” Read the post [here](#).

Iran War Unmasked: Michael Yon on Zionist Routes & Depopulation Play

From: Liz Gunn, FreeNZ
Former Green Beret and global conflict

Olympic Women's Sport To Be Limited To 'Biological Females'

The International Olympic Committee said on Thursday that only “biological females” will be allowed to compete in women’s

analyst Michael Yon breaks down the escalating Iran War, the strategic closure of the Strait of Hormuz, and how Zionist forces are using this to advance their depopulation agenda through impending engineered famine, major energy disruption, and control of global routes. Drawing on decades of on-the-ground experience, Michael warns that this is the continuation of World War Three. Watch this update [here](#).

**The Enemy
Is Not Each Other**

**The Enemy Is Not Each Other
On Trauma, Scapegoats, and the
Machinery of Division**

By Joshua Stylman

My friend Mark has a metaphor that I think about a lot. If you lock someone in a cage with an angry pit bull, they'll likely need to kill it before it kills them. That's simply a requirement for survival. But assuming they live, it's worth asking: who built the cage? Who brought the pit bull? Who keeps breeding more pit bulls? Who profits from the ticket sales?

I keep coming back to this because it so perfectly captures what I'm watching happen to people all around me, including many I love.

Recently, I watched a dear friend - someone who carries the weight of generational trauma much like I do - put his tribe on a pedestal while casting others as existential threats.

events, preventing transgender women from competing.

The IOC is reintroducing testing for gender to determine eligibility to take part in women's events from the 2028 Los Angeles Olympics onwards.

The move will also rule out many athletes with differences in sexual development (DSD).

In a major shift of policy, the IOC is abandoning rules it brought in in 2021 which allowed individual federations to decide their own policy and is instead implementing a policy across all Olympic sports.

"Eligibility for any female category event at the Olympic Games or any other IOC event, including individual and team sports, is now limited to biological females, determined on the basis of a one-time SRY gene screening," the IOC said. Read the story [here](#).

**Agenda 2030: You Will Own
Nothing What That Really
Means**

Today on Redacted, we sit down with investigative filmmaker Derrick Broze, whose new project Liberation 2030 exposes the real plan behind the globalist Agenda 2030 framework: a plan that goes far beyond ESG scores, digital IDs, and 15-minute cities. Watch the interview [here](#).

Like me, he is a descendant of Holocaust survivors, inheritors of that particular brand of ancestral memory that lives in your bones whether you want it to or not. Read the full piece [here](#).

You Are Not A 'Digital Ghost' & That Viral Substack Article Did Not Make You One

What Thirty Years In Tech Taught Me About Real Digital Privacy

Margaret is a fifty-three year old housewife in Birmingham who read an article on Substack last month about how to become a digital ghost. She followed all the steps. Deleted her old accounts. Checked Have I Been Pwned. Installed a VPN she found advertised on YouTube.

Changed her passwords. Felt pretty good about herself. Then she hopped on Twitter and told a local politician exactly what she thought about his immigration policy using language that would have been considered mild pub banter twenty years ago. Two weeks later, police showed up at her door. Read more [here](#).

Bill Cooper Said They Are Following a Script...and Predicted 2026 Precisely

Editor's Note: In our new Essential Reading section, we recently recommended Bill Cooper's Behold a Pale Horse. I believe he was the real deal--a former US Naval Intelligence Operative--and had a habit of being blunt with the truth, which is partly what got him killed.

I heard him speak in Salt Lake City about 30 years ago to a packed audience. He made a good, but edgy impression. In retrospect, the world could have used more of that talk back then.

In 1992, Bill Cooper made a series of statements that, at the time, sounded impossible. Extreme. Even irrational. But decades later... some of those words feel uncomfortably familiar.

In this video, we go back to those original recordings — breaking down what he actually said, the patterns he pointed to, and why so many people believe we might be watching parts of it unfold right now.

Bill Cooper Interview CNN Uncut 1992 original interview [here](#).

Watch the short report [here](#).

America First?
or Israel First?
The US is Occupied

R.F. Kennedy Jr. Just Nuked
The Narrative

“If you look at the Pfizer vaccine studies, the people who got the vaccine had a 23 percent HIGHER death rate from all causes.” Bill Maher panics. “But that could be the disease itself...” Kennedy ends it. “Then the vaccine doesn’t WORK, does it?” That’s it. Game over.

If a vaccine doesn’t reduce overall deaths, it failed. If deaths go UP, it’s not protection. It’s harm. They censored doctors. They buried data. They bullied the public.

Now the truth is leaking out anyway. Watch the short clip [here](#).

WINS OF THE WEEK

From: NZ Rising's Sister Organisation in Canada, [Freedom Rising](#):

Political

Bill 25 in Alberta bans “specialty flags” in classrooms. That means no political or ideological banners, whether tied to gender activism, global conflicts, or any other cause. The law also reins in school boards that have started acting like political lobby groups, issuing statements on trending issues instead of focusing on actually running schools. And for teachers, the direction is simple. Be objective, present balanced perspectives, and don’t use your position to push students toward a preferred ideology. Students should be taught how to think — not what to think. But what really stands out inside this bill is the protections for teachers who don’t want to deliver material that conflicts with their sincerely held moral or religious beliefs. - Read more [here](#).

Kentucky Gov. Andy Beshear has vetoed a bill that critics say would block Kentuckians from suing pesticide companies for failing to warn of their products’ hazards. Beshear called it “dangerous for Kentuckians” and something that “flies in the face of making America healthy.” Beshear in his veto message said Senate Bill 199 would “*slam the door shut on citizens’ access to courts to seek damages from the makers of these [pesticides](#) if the product simply has the warning label approved by the federal Environmental Protection Agency.*” “*These labels do not warn consumers of the risks of using these pesticides,* - Read more [here](#).

BC Conservative Leader candidate Kerry-Lynne Findlay announced that she will end SOGI indoctrination in schools and immediately outlaw gender-jacking (transitioning) of minors!

Medicine/Health

According to documents obtained by Sen. Ron Johnson due to a freedom of information request, federal health officials knew the statistical tool they relied on to look for COVID-19 vaccination harm signals in VAERS was “mostly useless.” CDC and FDA researchers used the tool anyway to create analyses that supported the vaccines’ safety. [Karl Jablonowski, Ph.D.](#), CHD senior research scientist who analyzed the documents, said: “*It is unconscionable that FDA and CDC leaders knew throughout the COVID pandemic that the method was flawed but used it anyway,*” “*What’s worse is that the CDC in 2022 called the statistic tool a ‘gold standard’ technique and used it as an excuse to not perform a different kind of safety signal analysis.*” - Read more [here](#)

Back in 2016, Johns Hopkins patient safety experts analyzing medical death rate data over an eight-year period, calculated that more than 250,000 deaths per year are due to medical error in the U.S., which the researchers say now translates to 9.5 percent of all deaths each year in the U.S. “*Top-ranked causes of death as reported by the CDC inform our country’s research funding and public health priorities.*” “*Right now, cancer and heart disease get a ton of attention, but since medical errors don’t appear on the list, the problem doesn’t get the funding and attention it deserves.*” -Read more [here](#)

From [Nicolas Hulscher, MPH](#): *“We have completed the largest real-world human analysis to date evaluating ivermectin and mebendazole in cancer patients—and the results represent one of the most compelling clinical signals ever documented for repurposed anti-parasitic therapies in oncology. In this real-world prospective clinical program evaluation, a diverse population of cancer patients were prescribed compounded ivermectin–mebendazole. - Read more [here](#)*

For decades, thousands of chemical substances have entered the American food supply through a regulatory loophole known as “generally recognized as safe,” or GRAS. They entered without formal review or mandatory disclosure to the FDA – and, in some cases, without any publicly available safety data. Because companies are not required to notify the government of self-affirmed GRAS determinations, there is no complete accounting of how many such substances are currently in the U.S. food supply. - Read more [here](#)

Legal

Poland, Romania and Hungary are resisting a Brussels court order to pay \$2.2 Billion to Pfizer for unwanted COVID vaccines. The lawsuit and court judgement has intensified a broader legal dispute over mRNA COVID shot contracts signed by European Union countries during the COVID-19 pandemic. The ruling follows a lawsuit filed by Pfizer in 2023 after both countries stopped accepting vaccine deliveries agreed to under a large European Commission procurement deal. - Read more [here](#)

The Justice Centre for Constitutional Freedoms filed a complaint against Winnipeg police for failing to respond to more than eight 911 calls during a violent protest targeting academic Dr. Frances Widdowson. The group announced it filed a complaint on March 24, 2026 with Manitoba’s Law Enforcement Review Agency on behalf of Widdowson for an incident in September when she was attacked by protesters on September 26, 2025. The complaint asks the Law Enforcement Review Agency to investigate whether officers failed in their duty to protect public safety and uphold the rule of law during the incident. *“A comprehensive review of the incident indicates that there were at least 15 threats, multiple instances of property damage and mischief, and 28 separate assaults, including shoving, spitting, choking, punching, and unlawful confinement,”* . - Read more [here](#)

Tamara Lich received a standing ovation as she opened her presentation, “The State of Democracy: Lessons from Grassroots Movements” at the University of Calgary on Wednesday to an almost sold out audience. Read more [here](#)

Telling It Like It Is / Truth Bombs

A key member of a federal vaccine advisory committee, which was [blocked from meeting](#) last month by a [federal court ruling](#), called the ruling “highly politicized.” [Retsef Levi, Ph.D.](#), a member of the Advisory Committee on Immunization Practices (ACIP) and head of the committee’s [COVID-19 workgroup](#), suggested the committee faced a “constant struggle” due to significant external pressure and opposition by pro-vaccine groups. One of those

organizations, the [American Academy of Pediatrics](#) (AAP), filed the lawsuit that resulted in last month's ruling. Levi said the AAP was motivated by a loss of the significant influence it traditionally held over ACIP recommendations. *"If you actually judge by what kind of recommendations they made over the years, they were always aligned with the interests of the vaccine manufacturers,"* Levi said. The [AAP receives funding](#) from Pfizer, Moderna, Merck and Sanofi. - Read more [here](#)

Speaking March 23 at the [Kennedy Center](#), attorney [Aaron Siri](#) called for sweeping changes to U.S. vaccine oversight. Siri said federal agencies have failed to ensure safety and transparency under a system that shields manufacturers from liability. He pointed to "useless" clinical trials and growing rates of chronic illness in children as proof that the current approach isn't working. Siri homed in on the [National Childhood Vaccine Injury Act of 1986](#), which largely protects vaccine makers from lawsuits and routes injury claims through a government compensation program. Congress passed the law, sometimes referred to as the "Vaccine Act," after significant numbers of [vaccine injury claims](#) led vaccine makers to threaten to stop making the products to avoid liability and expensive litigation. Siri said the Vaccine Act removed a key incentive to improve safety. Vaccines are "the only product in America" where families can't sue a manufacturer for a safer design, he argued. - Read more [here](#).

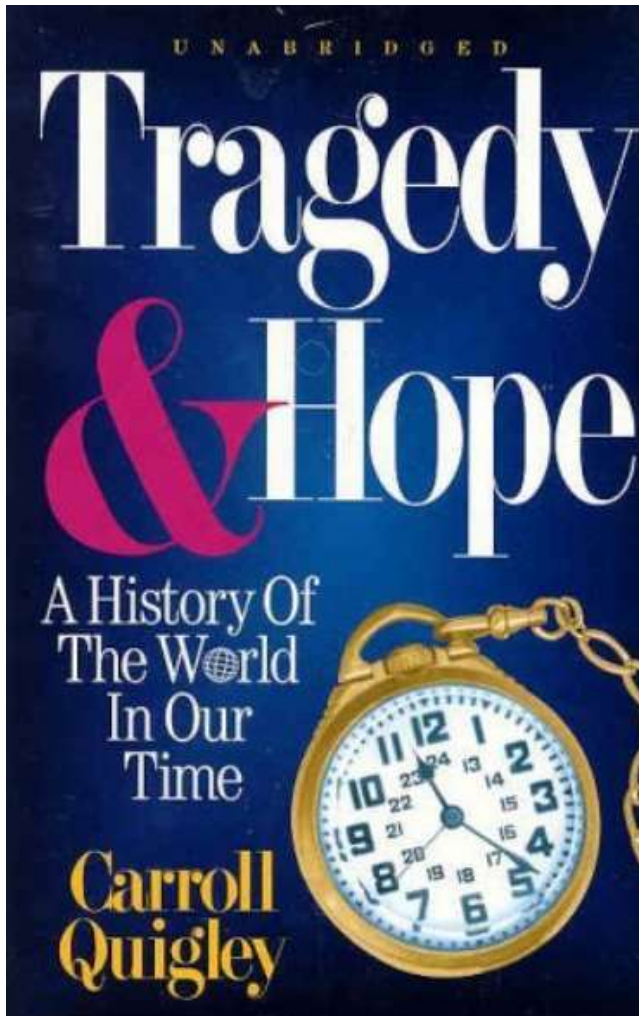

Jon Nisbett writes: "I was the very first person in Canada to obtain the Pfizer COVID-19 vaccine contract between Pfizer and the Canadian government after a years-long battle through a freedom of information request. After reading the contract, what really stood out to me was this clause, which specifically said: *"Purchaser further acknowledges that the long-term effects and efficacy of the vaccine are not currently known and that there may be adverse effects of the vaccine that are not currently known."* - Read more [here](#).

The latest MAHA Report tells it like it is: *"The American Academy of Pediatrics (AAP) is all about vaccines, as their [Healthy Children](#) website reveals. The first things you see are recommended vaccine schedules. You have to look pretty hard to find anything on the AAP website about the chronic disease epidemics – obesity, diabetes, autism, among others. Vaccines are so important to the AAP that the organization launched a nationwide effort in July of 2025 to repeal all [nonmedical](#) exemptions to vaccine mandates and announced that they will join several [states](#) and recommend their own vaccine schedule instead of following federal guidance.* - Read more [here](#).

Ottmar Edenhofer, a German economist and former co-chairman of the UN's Intergovernmental Panel on Climate Change (IPCC) Working Group III stated in November 2010 - *"One must say clearly that we redistribute de facto the world's wealth by climate policy. One has to free oneself from the illusion that international climate policy is environmental policy. This has nothing to do with environmental policy anymore."*

From Gaylene Barnes, Co-Author
 “It felt important to provide an account of the truth of what happened during this pivotal chapter in New Zealand’s social history. These weren’t just your usual protestors. They were nurses; teachers; builders; plumbers; farmers; mothers; fathers and grandparents —all just wanting to be heard.”

From: Siân Clément, Co-Author
 “Writing this book was about honouring the courage of everyday people who stood up and said, ‘enough’. It’s not just a retelling of what happened; it’s a reflection on who we

beginning with the industrial revolution and imperialism through two world wars, a global depression and the rise of communism.

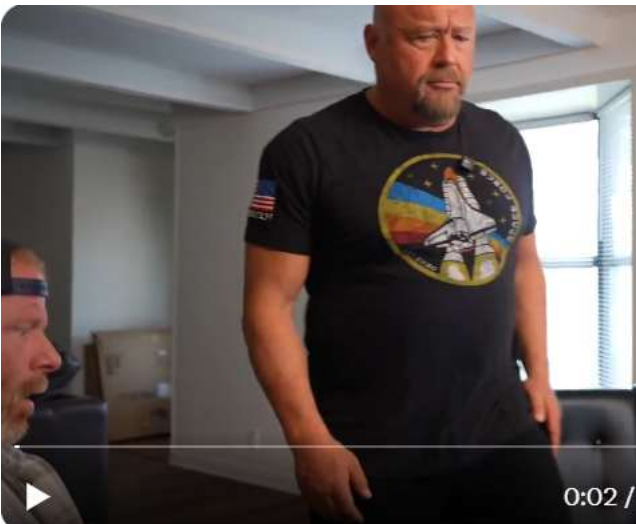

Tragedy & Hope is the definitive work on the world's power structure and an essential source material for understanding the history, goals and actions of the New World Order.

are, what we stand for, and what kind of future we want.”

Heart of the Protest also reveals the story of the filmmakers themselves — how a small team came together on Parliament’s lawn to document events. With no major distributor and near-total media silence, their crowdfunded River of Freedom became a grassroots phenomenon and, on 21 September 2023, was the most-watched film in New Zealand. Heart of the Protest captures not only what happened but why it continues to matter. Learn more or order [here](#):

8 Shocking Things Artemis II Found On The Far Side Of The Moon

The dark side of the moon has long been the subject of myth and speculation. What mysteries lie beyond the known lunar surface in that dark realm beyond our telescopes?

"Low IQ Alex Jones." Find out the shocking truth [here](#).

The Latest From Space

Artemis crew safely return from moon. All fully conscious and ready to bring about World Peace.

And while were at it. About the moon - watch [here](#).

My friend said, "You have a BA, a Masters, and a PhD, but you still act like an idiot." It was a third degree burn.

Now, It can be revealed what the crew of the Artemis II mission discovered on the other side of the moon:

- Rocks: Lots and lots of rocks.
- A Starbucks: Man, they really are everywhere.
- 1,000,000,000 Mylar birthday balloons: So that's where they all end up.
- A Somali daycare: The owner says it has a huge client base and is totally legit
- Several boxes labeled "Epstein Files": Someone must have been trying really hard to keep these from being found. Read more [here](#).

STATEMENT OF PEACEFUL INTENT

At New Zealand Rising we would like to reiterate our position as an organization that is fully committed to peaceful, non-violent action and dissent and to clearly state that we do NOT support or wish to be associated with anyone who is advocating, suggesting or even just implying violent revolutionary change. You can read more about what we stand for in our Guiding Principles.
