## WHAT IS NEW ZEALAND RISING?

New Zealand Rising is an alliance of separate groups and individuals from all across New Zealand who believe in a better future. We are many different people with different views, however we all share a common vision for the future.

*"We, the people, stand united for a New Zealand that is respectful, includes everyone, and is free of government overreach."*

*"Kia tūkotahi tātou ō Aotearoa, hei whakarangatira tātou i a tātou. Herea te Kāwanatanga, kia kore e pēhia te mana o te tāngata."*

**NZR Directory** of all groups around New Zealand that share this vision are on [our website](#)  
**Newsletters** past and present can be viewed and downloaded [here](#).

**Letters to the Editor:** send to [newzealandrising@proton.me](mailto:newzealandrising@proton.me)

**Donate to NZR today** to help defray email & web-hosting costs. 100% of your donation goes to these costs. Use the details below and flick us an email of the good news! Thanks in advance.

*From the Editor: For this issue, the topic of choice was easy: Unity. It will become in favour once again. See my piece below about an interview that marks a turning point. It's an interview that wouldn't have happened 5 years ago. It shows us that, although we don't agree on everything (that's for sure!), we all want peace, a government that doesn't steal and lie from us, and a sustainable lifestyle for ourselves and our family. There's a paradigm shift in the air, I can smell it. The Powerful are scared that we (on that old Left/Right paradigm) will stop infighting. And they're in trouble. We're starting to "look up" at the puppet-masters, instead of bickering with ourselves, whether we have blue hair or not, or whether we're in the freedom movement or not. It's a good time to be alive.*

## NEWS FROM NZ RISING MEMBER ORGANISATIONS

---

Breaking Research Decodes the Mystery of “The Rubbery White Clots”

From: [NZDSOS](#)

A landmark trilogy of scientific studies, just published on the preprints.org server, has for the first time comprehensively characterised the anomalous intravascular casts (AICs) commonly reported by embalmers worldwide as strange, rubbery white clots.

The research, significantly funded by New Zealand Doctors Speaking Out with Science (NZDSOS) and conducted by New Zealand-based researchers Drs Bruce Rapley and Matt Shelton, provides definitive analysis that these structures are a previously unrecognised and abnormal form of intravascular clotting. See the report [here](#).

## Invitation To Join The Five Year Vigil For Covid Vax Injured - Christchurch

There are quiet heroes among us. One such group of staunch Covid vax-injured supporters is the incredible Christchurch Health Forum signs group, who gather at the Bridge of Remembrance every week in all weathers. Their presence reminds passers by that the Covid vax injured are REAL not RARE. On February 19th this year, it is five years since the first dose of Pfizer mRNA was administered in New Zealand. Learn more [here](#).

## Australia's Monica Smit "We Are Ready" NZ Tour Continues on the North Island till 22nd Feb.

*By Randall Richards, [Mountain Spirit Media](#), [NZ Media Collective](#)*

Author of "Cell 22", Monica Smit, has been on tour in New Zealand since the 10th of January and is still going strong in the North Island with more events until the wrap-up on 22nd of February in Hamilton. I recently saw her speak in Wanaka and found her presentation heartfelt, informative and inspiring.

I first saw Monica on an online Zoom call when she spoke to the members of New Zealand Rising at our founding meeting. We had a heady collection leadership from throughout New Zealand. Read more [here](#).

## Weaponised Censorship and the Cancer Link

*From: NZDSOS*

### **Publication Fraud and Censorship**

Fraudulent journal publications played a significant propaganda role during the height of the pandemic. Two of the biggest frauds, the Together Trial and the Principle Trial, attempted to discredit ivermectin as an effective treatment against covid. Perhaps the granddaddy remains the Surgisphere scandal, where the Lancet and New England Journal had to carry out humiliating retractions of a giant scam to smear hydroxychloroquine. These frauds barely made the news, however, and much of the mud thrown at cheap, low-risk repurposed covid treatments sadly still sticks today. Read the article [here](#).

## Mental Health and Wellbeing Commission Gatekeeping Raises Alarm Bell

Despite extensive scientific literature linking nutrition, metabolic health and nutrient status to mental health outcomes, these factors are largely absent from the Commission's policy language, monitoring frameworks, advisory processes and published outputs. Read the PSGRNZ report [here](#).

# NEW ZEALAND NEWS

## Call for Truth, Accountability, and Justice for the Mount Maunganui Families

An update on David Lynch's Ministerial Briefing, a heartfelt tribute to Max Furse-Kee and an offer to support the victim's families

New information from David Lynch confirms that the formal request for a Royal Commission of Inquiry into the Mount Maunganui landslide is still sitting with the government, with families and advocates now weighing up what to do if Ministers fail to treat the disaster with the seriousness it deserves. Read more [here](#).

## Jacinda Ardern: A National Mistake That Must Never Be Repeated

*By: Matthew Horncastle*

Jacinda Ardern: a national mistake that must never be repeated

This assessment is not based on emotion. It is based on measurable outcomes.

Debt:

Under Ardern, net core Crown debt rose from around NZ\$83 billion in mid 2020 to NZ\$175.5 billion by mid 2024, an increase of roughly NZ\$92 billion. Debt climbed from under 20 percent of GDP to more than 40 percent. This was one of the fastest deteriorations in our history.

Housing:

House prices surged to more than 11 times Read the rest of this article [here](#).

## Head of COVID Response Steals \$1.8M

New Zealand taxpayers' money has been stolen by one man who headed the COVID Response. Watch the report [here](#).

## NZ, Connect The Dots

Marsden Point closed.  
That wasn't just the end of refining.  
It was the start of a domino effect.  
We lost domestic fuel resilience  
We lost domestic bitumen production  
We became reliant on imported fuel + imported road materials  
Shipping routes and global conflict now affect NZ indirectly  
Road maintenance costs rise  
Government announces "Pothole Prevention Fund"  
But that money comes from the same place...  
THE PUBLIC.  
Through:  
car registration increases  
expanding RUCs  
fuel excise  
a new modernised RUC system  
So let's be clear:

They shut down national resilience...then built an imported dependency model...then handed the bill to everyday New Zealanders.

This isn't progress. This is managed dependence.

And now we're paying more just to drive on the same broken roads.

If we don't stop this now, the new eRUC system becomes permanent.

This is why we need our petition in front of MPs immediately. Due process is needed.

Link for more info [here](#):

Energy security = national security.

Fuel resilience = economic survival.

Starting a parliament petition soon so will be backed by [Change.org](https://www.change.org)

Read the source FB post [here](#) and sign the petition [here](#).

## NEW ZEALAND EVENTS

*Attn: Readers, feel free to submit information about upcoming events via email [here](#).*

- **Dr Caroline Wheeler's Tribunal,** 16th & 17 Feb, Rutherford Hotel Nelson. , public in-person support is welcome *Submitted by: NZDSOS*
- **Dr. Bernard Conlon Tribunal.** 2 week tribunal starts 9 Mar, Rotorua public in-person support is welcome *Submitted by: NZDSOS*
- **Holistic Health Market,** 21 Feb Mt. Maunganui, See image below

## INTERNATIONAL NEWS

### 5 Years Ago, This Interview Wouldn't Have Happened

By: Randall Richards, [Mountain Spirit Media](#), [NZ Media Collective](#)

Cenk Uygur of [The Young Turks](#), the oldest running podcast on Youtube/Internet just sat down with [Tucker Carlson](#). To be clear, the powerful people in the world don't want this sort of thing happening. Uygur is a classic liberal, and Carlson is from the right (that is if you still buy into the labels). This interview and the Youtube comments sent shivers up my spine because we are starting to see the veil lifted. Whether we have blue hair or not, we're starting to see we have some big things in common, like anti-war, and that it's more important to put some of our differences aside to tackle the big issues. One of those issues, the least of which, is our survival. Read the rest of this piece [here](#).

## HHS Leaders Commend the American Society of Plastic Surgeons for Disavowing Pediatric Sex-Rejecting Procedures

The latest news on stopping child mutilation (disguised as healthcare), from the American Society of Plastic Surgeons in the US. Meanwhile in NZ... crickets. The NZ medical system doesn't appear to notice that the winds of change are upon us, and 'gender affirming care' "GAC" is over. Read more [here](#).

## Battle for Science Takes the International Stage

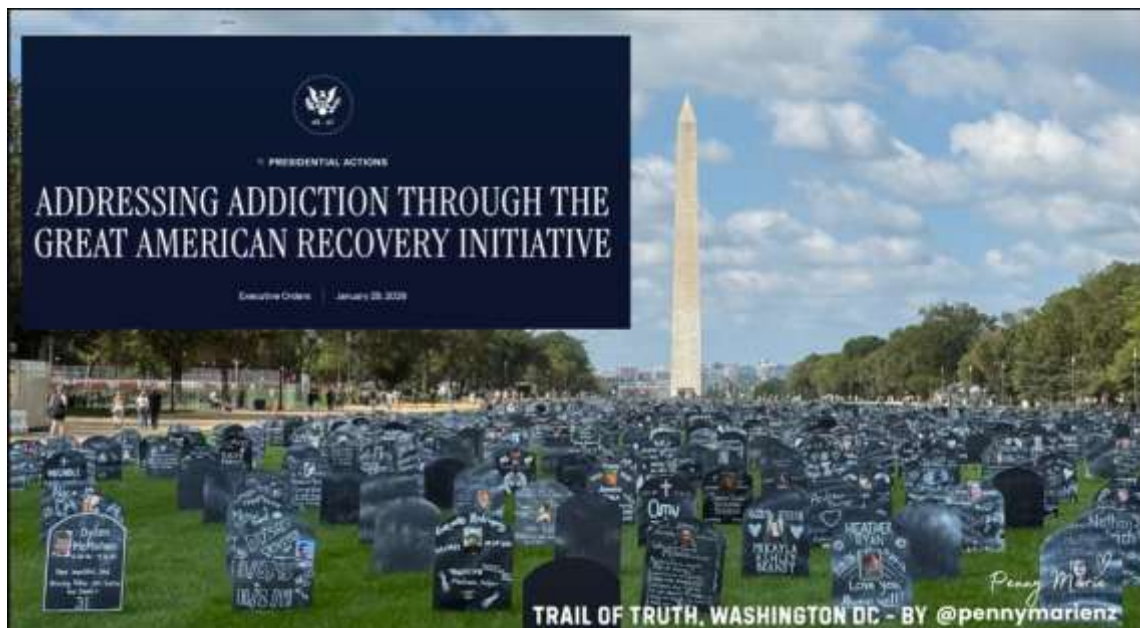

From: [Focal Points](#)

The "Battle for Science" panel assembled a group of international physicians, scientists,

journalists and analysts who questioned both the official management of the COVID-19 pandemic and the broader assumptions underpinning vaccination policy. The recurring themes were data suppression, institutional corruption, public manipulation through fear, and the necessity of transparency in health systems. See the panel discussion [here](#).

## OTHER NEWS

### US Secretary Kennedy Announces \$100 Million Investment in Great American Recovery

*From: Penny Marie*

#### **Memorialising Loved Ones Lost to Drug Related Causes**

Health and Human Services (HHS) Secretary Robert F. Kennedy, Jr. today announced a comprehensive plan to strengthen prevention, expand treatment, and carry out the executive order President Trump signed last week to ignite the Great American Recovery.

The centrepiece of this plan is a \$100 million investment to solve long-standing homelessness issues, fight opioid addiction and improve public safety by expanding treatment that emphasises recovery and self-sufficiency. Read more [here](#).

## Lifting The Lid – An Open Reply to Chris Bishop, National's Campaign Chairman

*From: NZDSOS Guest Post by Mary Hobbs*

Dear Chris

I was just about to press delete on your bulk email of last week, as the Campaign Chairman for National in the upcoming elections, but I couldn't go past it without making a few comments that will hopefully be of help. Your mailout was about five things New Zealanders may have missed last week and is apparently our chance "... to hear directly from us about what National has done each week to fix the basics and build the future and to read some of the progress we're making in many areas on your behalf." Disappointingly, I was unable to see what National had done to "fix the basics and build the future" or to read of any progress "on my behalf." Read the article [here](#).

## Oligarchies Rule "Democracies": Rome's Ruin to Russia's Rebirth

Western democracies are a thin veil for oligarchic rule—from Rome's slums and assassinations to 1990s Russia's collapse under banker-tycoons. Alex Krainer exposes why they breed crises, wars, and decline, contrasting with Putin's fix that revived Russia. What REALLY Happened in History? Rome's elite crushed reformers like the Gracchi and Caesar, impoverishing masses via debt and usury. Same in modern West: studies show elites dictate policy, ignoring 80% public will. Russia's oligarchs (Berezovsky, Khodorkovsky) looted the nation until Putin barred them from politics—no purges, just rule of law. Watch [here](#).

## Geoff Upson Road Safety Campaigner

## The Inimitable Gaylene Barnes

*From: Chris Lynch Media*

In this edition of Let's Meet for Coffee, I chat with New Zealand's most fearless filmmaker, Gaylene Barnes. Her work has challenged power and amplified voices mainstream media ignored. Watch her blunt assessment of Ardern's legacy, Hipkins as prime minister, and what drives a filmmaker who refuses to stay silent. Watch the interview [here](#).

## From 'Top Surgery' to a \$2 Million Verdict:

**From Let Kids Be Kids: The Case That Shattered Gender Medicine's Consensus**  
Is the 'Gender Affirming Care' industry about to come tumbling down? The first lawsuit win for a detransitioner has been won in New York

Unfortunately a few people got so upset about my support for the community they've lodged an official complaint to council.

Don't worry, they can't fire me. I am elected by you and work for you.

While I am not saying "go cut down the camera," I am saying let's acknowledge why they are being cut down and acknowledge that the community voted...read more [here](#).

## O'Keefe: "You Get Spiritual Real Fast"

If you're going to be a truth teller, your price has to be your life. Watch [here](#).

On January 30 2026 a New York jury found two doctors liable for malpractice after approving and performing a double mastectomy on a distressed 16-year-old, they did more than compensate one young woman. They quietly put an entire model of "gender-affirming care" on trial - and found it wanting. Read more [here](#).

## Pizzagate Is Much Worse Than We Thought, Epstein Documents Just Changed Everything

This is a good interview with the journalist who first exposed Pizzagate. She explains how she came onto the story. Later it's discussed how the Epstein files have now corroborated her story, in fact found to be worse than what had been exposed in Pizzagate.

This interview is particularly good for people who either weren't aware of Pizzagate at the time, or they thought it was some sort of unfounded wacko conspiracy theory. Watch the interview from Redacted [here](#).

## Sneaky Tax on Water

## Something Big Is Happening

### A Personal Note on What AI is Changing

*By Matt Shumer*

Think back to February 2020.

If you were paying close attention, you might have noticed a few people talking about a virus spreading overseas. But most of us weren't paying close attention. The stock market was doing great, your kids were in school, you were going to restaurants.

I think we're in the "this seems overblown" phase of something much, much bigger than Covid.

I've spent six years building an AI startup and investing in the space. I live in this world. And I'm writing this for the people in my life who don't... my family, my friends, the people I care about who keep asking me "So what's the deal with AI?" and getting an answer that doesn't do justice to what's actually happening. I keep giving them the polite version.

The cocktail-party version. Because the honest version sounds like I've lost my mind. Read the rest [here](#).

A new tax on water is trying to come through with the new RMA bill. This must be fixed! More info [here](#).

## Oz's Digital ID Extends Past Its Borders

Substack has locked me out of my blog due to Australia's "Online Safety Act." Watch [here](#).

## WINS OF THE WEEK

**From: NZ Rising's Sister Organisation in Canada, *Freedom Rising*:**

Let's take a moment to honour the four year anniversary of the freedom convoy.

### Political

Bills being introduced in New Hampshire: 1. HB360, prohibiting prescribing and surgical capabilities on school property in an attempt to reign in school based health clinics; 2. HB1811, No Mandates- ending school and daycare mandates; 3. HB1378, requiring parents have access to a child's electronic medical records; HB1219, ending foster family vaccine requirements; 5. HB1449, requiring school vaccine clinics to be after school hours; 6. HB1719, hep b vaccine repeal; 7. HB1671, requiring a withholding of Medicaid payments to medical facilities who don't honor medical and religious exemptions for employees and students; 8. HB1117, free speech in medicine; HB1584, requiring that all advertisements and notifications of vaccine requirements include notification of exemptions.

In a long-awaited decision, the Trump administration is fulfilling a pledge it made in the summer of 2025 to cancel a policy put in place by the Obama administration that has been used to impose greenhouse gas emissions restrictions on American industries. *"This will be the largest deregulatory action in American history, and it will save the American people \$1.3 trillion in crushing regulations,"* White House press secretary Karoline Leavitt told reporters on Feb. 10. *"The scientific underpinnings of the endangerment finding (of GHG emissions) are weaker than previously believed and contradicted by empirical data, peer-reviewed studies, and scientific developments since it was first enacted in 2009,"* said Greg Wrightstone, executive director of the CO2 coalition. *"Relying on false computer models and pseudoscience, the EPA erroneously claimed that carbon dioxide and other so-called greenhouse gases threatened to overheat the Earth. The agency disregards complexities of climate dynamics—from solar cycles to clouds to ocean currents—and a mountain of real-world data accumulated over decades and centuries that disprove the endangerment finding."* *"Rather than an Earth that is spiraling into man-made climate crises, the facts reveal that the planet's ecosystems are thriving and prospering and humanity is benefiting from modest warming and more CO2,"* Wrightstone said. *"Forests are expanding, deserts are shrinking, agricultural productivity is expanding, and drought is declining."* - Read more [here](#).

The House of Representatives has voted to require proof of U.S. citizenship in the November midterm elections. Lawmakers voted 218-213 to approve the SAVE America Act, with only one Democrat joining Republicans to back the measure.

### Medicine/Health

The U.S. Food and Drug Administration has **declined to review Moderna's application** for its new mRNA flu vaccine. The FDA cited the company's failure to perform an "adequate

*and well-controlled” clinical trial and its failure to use the “best-available standard of care” during the trial process. The decision follows the FDA’s adoption of a stricter approach to approving vaccines. The decision to not even consider Moderna’s application “signals a new aggressive phase to regulating drugs and forcing drugmakers to perform [more rigorous studies](#).” Moderna’s clinical trial tested its [mRNA-1010 vaccine](#) against an existing flu vaccine instead of a placebo. Specifically, it compared the outcomes of the mRNA-1010 vaccine against a standard-dose flu shot. Experts suggest the FDA may be signaling skepticism of mRNA vaccines in general. - Read more [here](#).*

The National Cancer Institute is testing ivermectin in lab and animal models after patient interest and online reports highlighted its potential to trigger cancer cell death and slow tumor growth. Florida's \$60 million Cancer Innovation Fund, backed by Surgeon General Joseph Ladapo, will also explore repurposed drugs like ivermectin, and nutrition-focused approaches, prioritizing quick studies on patient stories from doctors like William Makis. - Read more [here](#).

## Telling It Like It Is

The American Medical Association is teaming up with the Vaccine Integrity Project to conduct its own review of vaccine safety and efficacy, claiming that advisers to the Centers for Disease Control and Prevention (CDC) are no longer doing a good enough job. The groups said Wednesday that the CDC’s Advisory Committee on Immunization Practices (ACIP) “has now effectively collapsed.” **Children’s Health Defense** General Counsel Kim Mack Rosenberg said it’s unlikely that the groups will restore people’s peace of mind about **vaccines**. She said: “*Unfortunately, the AMA and the Vaccine Integrity Project support a narrative about vaccines that is being exposed more and more as problematic and contradicted by what people are seeing with their own eyes. “The system is broken and efforts to prop it up from the inside are being exposed for conflicts of interest and flawed analyses.”* **Former CDC Director Rochelle Walensky** serves as the Vaccine Integrity Project’s adviser of medical affairs. In 2022, Walensky admitted the CDC **gave false information** about COVID-19 vaccine safety monitoring. “*Trusting the AMA and the Vaccine Integrity Project to objectively review vaccine safety feels a lot like asking the fox to guard the henhouse,*” said **Nebraska chiropractor Ben Tapper**. Mack Rosenberg said the repeated failures of such organizations to “truly and comprehensively” analyze vaccine safety data have led to “increasing distrust among the public — and with good reason.” - Read more [here](#).

Some wisdom from Marcella Piper-Terry: “*Ian Vandaele was a Canadian reporter who fell for the lies. He died in December of 2023. Neurological death is mentioned, but there is no other available information. What his obituary says is that Ian was a “bright light” and deeply caring person. Apparently, only for people who thought like he did. Ian advocated for concentration camps for anyone who refused the COVID shots. This “caring person” became nothing short of a Nazi because of the lies and constant fear-mongering his young brain was subjected to for months and years. I believe he probably thought he was doing “the right thing.” When you think about the factors that could turn “a bright light” and “caring person” into a Nazi who believes anyone different should be locked up, the psychological abuse from our governments and government sponsored media rise to the top of the list. Ian’s death is not something to celebrate any more than the deaths of other babies, children, adolescents, or young adults. He was used. He was brainwashed. He was*

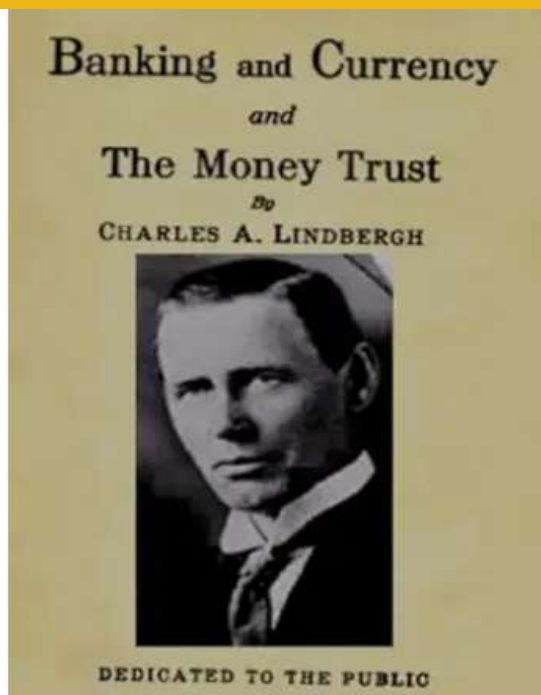

*recruited. He could be your son. Or mine. Are we really angry at Ian? If so, that anger is displaced.*" - More [here](#).

Dr McCullough declares that mRNA vaccines were a 12 year military operation, not "op warp speed" *"The military invented mRNA injections, not Pfizer or Moderna—not Operation Warp Speed."* This wasn't Big Pharma's 'miracle'...it was a DARPA MILITARY blueprint from 2012—a DECADE before COVID! Planned gov't weaponized op for control. - Read more [here](#)

Dr. Peter McCullough writes: **736 measles cases** prompt nearly **40,000 press pieces**, 75% promoting vaccination mainly in states with vaccine choice

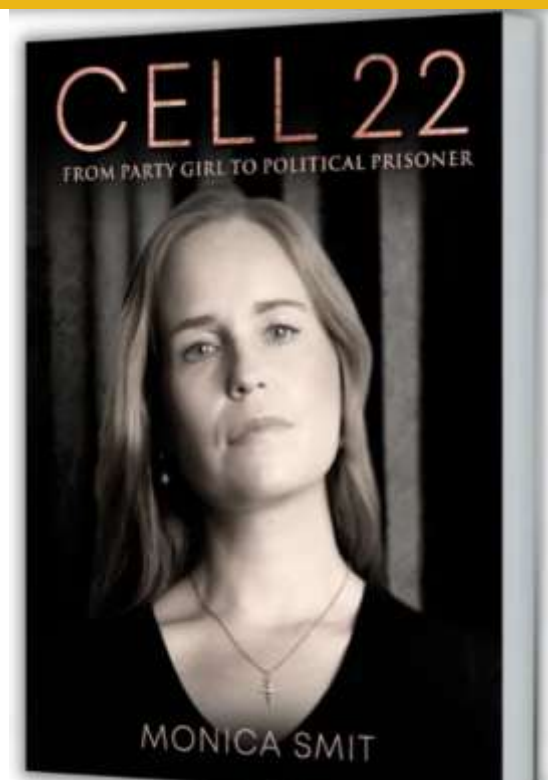

## Essential Reading & New Releases

### Lindbergh's Legacy

From the Editor: I found this book buried in the Occidental Library in L.A. in 1984, and, to Amazon's credit, they have it for sale. An Important read. In this insightful book, Charles A. Lindbergh, father of the

### New Release

Founder of Reignite Democracy Australia, Monica Smit became a well-known activist during the COVID era. Monica wasn't

famous aviator, shares his views on the early 20th-century American financial system. Lindbergh's book was controversial at the time, but self-evident now. There was a kidnapping in the Lindbergh family over this hot topic which the powerful didn't like being discussed.

always a strong outspoken activist, but she's had a long, authentic journey. Here at NZ Rising, I think I can speak for our membership when I say that we always have time for Monica. She's proven herself as a sincere truth seeker and activist. You can find her book [here](#).

## Keeping A Sense of Humour Perspective

### What Not to Play When You Get Stopped

"Coxy Official"'s debut in our Newsletter, but standard fare of the editor. Watch [here](#).

### Piano Lessons or Ex husband?

Watch [here](#).

For all our readers considering themselves as "non-compliers":

*"I went for a job interview yesterday. They said "Describe yourself in one word." I said, "Bad at following directions."*
